FURY OF BATTLE IS UNABATED

Allies Continue to Stand Before Attacks of Unexampled Ferocity

GERMANS SUCCEED IN ADVANCING AT AWFUL COST

ONLY TO BE HURLED BACK

To Reach the Coast the Invaders Will Be Compelled to Pontoon the Yser Which Though a Small Stream is Too Deep to Be Forded.

Paris, Nov. 13.—The battle on which probably depends the fate of the German invasion of Belgium and northern France continues to rage with unabated fury. Despite the masses that are ceaselessly being hurled against the allies and despite the attacks of unexampled violence the allies are forced to sustain, they are said to still hold the key position around Ypres.

The ancient city and the villages of Zonnebeke, Paschendale and Hollebeke within a radius of six miles constitute the dangerous salient or wedge thrust into the German line. While Ypres remains in the possession of the allies, military strategists say that the German advance toward the coast by way of Labasse and Bethune will be impossible, since their north flank would be threatened by the allies.

If the allies should succeed in advancing further from Ypres, according to these officers, the Germans would be compelled to abandon Lille and virtually give up hope of reaching the coast through Arras. Advancing from Dixmude, the Germans, it is said, at an enormous cost, succeeded in crossing the Yser once more, but only to be hurled back again. The Yser is a small stream, but it is too deep to be forded and therefore passage over it must be made by pontoons, all the regular bridges having been destroyed long ago. The throwing across the stream of pontoon bridges in the face of firing from thousands of well posted men, is an exceedingly costly operation; but the possession of the Yser, it is considered, worth it, since it facilitates the flooding of the country as far as Dixmude.

The struggle is not confined to the region of Dixmude and Ypres. It is again breaking out afresh along the seashore, where the Germans are declared to have been driven out of Lombardzyde, and are being slowly forced toward Ostend. The Germans are said to attach great importance toward the possession of Lombardzyde because it commands the Newport region and are consequently making every effort to regain it. Thus far their effort is said to have been without success.

Fog probably hampers both sides, since there is no question in any of the reports of the fighting of the allied warships bombarding Lombardzyde.

Cruiser Emden's Last Fight Was In Keeping With Her Reputation For Daring Bravery

London, Nov. 13.—The correspondent of the Chronicle at Keeling, Cocos Islands, under date of Thursday, Nov. 12, sends the following story of the last fight of the German cruiser Emden:

"A four-funnelled cruiser arrived at full speed at the entrance of the lagoon at 6 o'clock Monday morning. The suspicions of those ashore were at once aroused as the cruiser was flying no flag, and the fourth funnel was obviously a dummy made of painted canvas.

"The cruiser immediately lowered a launch and two boats which landed three officers and forty men, all armed and having four maxims.

"The Germans, for such they proved to be, rushed to the cable station turned out the operators, smashed the instruments, crimped unsuccessfully for the cables and blew up the electrical stores, but a general call had already been sent out by wireless.

"At 9 o'clock the Emden blew her emergency siren for the return of the landing party, but did not wait for them. From ashore the reason for the Emden's haste was apparent, as in the east a warship could be seen coming up at full speed.

"The Emden fired the first shot at a range of 2700 yards at the same

INSPIRATION FROM AN UNCANNY LEGEND OF RUSSIAN ARMY.
(Associated Press Telegram)
London, Nov. 13.—The Petrograd correspondent of the Daily Mail, in announcing that Petrograd has been made a dry city for the duration of the war and that no wine, beer or spirits will be allowed to be sold anywhere gives a legend permeating the Russian army a "white general" who rides through the ranks on a white horse.
"If he looks a man full in the face," the legend runs, "that man bears a charmed life. Those whom he passes with eyes averted are marked for death. During the last two weeks the 'White General' has not been seen in the Russian ranks. The soldiers say he is busy in the German and Austrian armies walking with his eyes to the ground."

zyde and the Ostend road which in clear weather are well within their range.
The Germans continue to attack the British in the region of Arras and Labasse without, military observers say, appreciably changing the lines. It is thought, however, that they probably are not putting forth their full effort as the operations are necessarily subordinate to those on the Ypres position.

VILLA WILL MAKE ATTACK ON TAMPICO

Washington, Nov. 13.—General Villa has ordered an attack on Tampico. His army is operating from the city of San Luis Potosi, which was occupied without firing a shot. Official dispatches received here today say the people received Villa with an ovation.
Not until it is determined when control of Vera Cruz and execution of the guarantees requested by the United States will American troops be ordered from the southern port. Last decision by President Wilson and his advisers stood today as the American attitude toward the tangled Mexican situation which threatens a renewal of civil warfare. Coupled with it is the desire not to interfere in the controversy among the military leaders of the republic.

PROHIBITION IS TO BE AN ISSUE AGAIN NEXT YEAR

Columbus, Nov. 13.—There will be another state-wide wet and dry fight in Ohio next year. Trustees of the Ohio Anti-Saloon league, at a meeting here last night voted unanimously to submit to the people another statewide prohibition amendment to the constitution in the 1915 municipal and township election.

MILLION MORE MEN FOR BRITISH ARMY.

London, Nov. 13.—A supplementary estimate to provide for another million men required by the British government during the year ending March 31, was introduced in the house of commons today. This brings the total army, not including the territories to 2,186,400, officers and men.

time steaming in a northerly direction at her fastest possible speed. Meanwhile, her pursuer was identified from the shore as the Australian cruiser Sydney.

"At first the firing of the Emden seemed excellent, while that of the Sydney was erratic. This, it afterwards developed, was due to the fact that the Emden's first shot had wrecked the Sydney's range finder. The British gunners soon found the range, however, and shot away two of the Emden's funnels and one mast. Both ships were blazing away with all their guns when they disappeared below the horizon and the Emden was after it.

"Meanwhile the landing party entrenched on the shore of the lagoon, determined to fight if the British sent a party ashore. After a time, however, they decided to quit the island. They embarked on the old schooner Ayesha, seized a quantity of stores and sailed away. They have not since been seen.

Early on Tuesday the Sydney arrived off the island and reported her victory. The officers explained that they were able to keep out of the range of the Emden's guns, meanwhile bombarding her with their heavy artillery. The engagement lasted 80 minutes, the Emden finally going ashore on North Keeling Island, an utter wreck."

WHOLESALE BUSINESS AFFECTED

By Foot and Mouth Disease Quarantine, Which Is Extending

RAILROADS REFUSE SHIPMENTS PACKED IN HAY OR STRAW

ADD MORE COUNTIES

Appeals to State Veterinarian to Relax Some Provisions Refused On the Ground of Strict Necessity—Half of Ohio Now Under Quarantine.

Columbus, O., Nov. 13.—Wholesale mercantile business in most large cities of Ohio was partially demoralized today as a result of quarantine orders issued by the state agricultural commission on account of foot and mouth disease.

Shipping articles packed in straw and hay virtually ceased temporarily because railroads refused to accept shipments unless each was accompanied by an affidavit certifying that the straw packing material was harvested before August 1.

Many jobbing companies telegraphed Dr. Paul Fischer, chief state veterinarian, asking a modification of the order relating to straw or hay packing, but this was refused on the ground of "strict necessity."

Shippers were told they would have to arrange with railroads concerning the affidavits, and that if railroad authorities wished to accept a single affidavit for a number of shipments, the state veterinary officials would not object.

Three more counties today were added to the list of those under complete quarantine because of foot and mouth disease. The counties added to the quarantine today were Sandusky, Huron and Richland. The number of counties now under total quarantine is 22, and it is probable that the area of the restricted territory now comprising more than half of the state will be widened.

Putnam county was added to the list of those counties under absolute quarantine by the state agricultural commission this afternoon.

PLAGUE IN RICHLAND.

Columbus, Nov. 13.—Richland county was added today to the list of Ohio counties under quarantine for foot and mouth disease. This was done because of a shipment of exposed cattle from Cleveland to that county.

INDIANA FARMERS BAND TOGETHER TO TIDE OVER WINTER.

South Bend, Ind., Nov. 13.—Because of the extermination of their cattle and other live stock on account of the foot and mouth disease, and the improbability of receiving any reimbursement for at least a year, farmers of St. Joseph county will meet in South Bend tomorrow to form a community organization, the purpose of which will be to provide means to tide them over the winter. Many of the farmers are without support because of the wholesale destruction of their cattle, live stock and hay which they intended to market.

YOUNG WOMAN'S SUDDEN DEATH THURSDAY AFT.

Mrs. William Mahard, 18 years of age, and a bride of two months, died suddenly Thursday afternoon on the farm of Joseph C. Spencer, where her husband was employed.

Mr. and Mrs. Mahard went to the Spencer farm, five miles northeast of this city, shortly after their marriage. Her husband, who is but 19 years of age, heard his wife calling him, and going into another room found her on the floor apparently suffering very much. Mr. Spencer also heard her call, and the two entered what assistance they could. Dr. Carl J. Dillion was summoned but the young woman died before he reached the house.

Coroner W. E. Welfarth was notified and is conducting a postmortem examination this afternoon.
Mrs. Mahard was the daughter of Mr. and Mrs. John Rose of St. Louis, Mo., who arrived with one brother and two sisters. The body was taken to the Rose home and the funeral will be held from there Sunday. Interment will be made in the village cemetery.

Burnishing the Famous Iron Cross.
It has been announced in Berlin that 38,000 Iron Crosses have been awarded to heroes of the war. This illustration shows the last stages in the manufacture of the famous German decoration. So rapidly has Kaiser Wilhelm awarded them since the beginning of the war that a small factory has been kept busy.

EXPENSES

ACCOUNTS OF CANDIDATES, INCLUDING GOVERNOR COX, ARE BEING FILED.

Greatest Amount of Money Seems to Have Been Spent by "Wets and Drys."

That is that of \$20 "paid to George W. Walker for conducting colored voting school."

The Lawrence County Home Rule association spent \$904.74 out of total receipts of \$1,125.

The Licking County Home Rule advocates disbursed \$2,135; Hancock The Hogan Hamilton County Rallying committee spent \$252.95 in furthering the campaign of Attorney General T. S. Hogan for United States senator, according to the statement filed by John A. Deasey of Cincinnati.

Edward C. Turner of Columbus, attorney general-elect, paid out \$76.17 for campaign expenses. Of that amount \$65.10 was paid to the Republican state executive committee and \$27 to the Summit county Republican committee.

George White, Democrat of Marietta defeated for re-election to congress, spent \$1,113. A. G. Carpenter, Cleveland, Progressive, elected Appellate judge, spent \$1,640, all of which was contributed.

Howard E. Baker, Progressive, of Zanesville, candidate for congress, spent \$40.

Phil M. Crow of Kenton, Democrat, defeated for supreme court justice, paid out \$1,140.35.

The Richland County Home Rule Association disbursed \$2,111.11 in campaigning for the adoption of the Home Rule amendment; the Coshocton County Commercial league spent \$1,500.17, \$1,000 of which was contributed by the Ohio Home Rule Association. The Portage county days paid out \$1,757.56 in fighting for the adoption of the prohibition amendment. The Pike County Home Rule association spent \$425.

Other accounts filed with state war as follows: county Home Rule Association: Low the \$66.35 to pay with up to \$2,125.18. This will be paid in a few days. One item of \$1 by the Toledo "Wets."

MINE EXPLOSION KILLS OFFICERS AND 8 SOLDIERS

Toluca, Nov. 13.—An official communication made public today says that a subterranean mine, which exploded on Tuesday, killed two officers and eight soldiers and injured one officer and 56 soldiers. Four hundred and thirty wounded Germans are in the hospital at Toluca.

HUNTING DOG OF GOVERNOR COX IS LATER QUARANTINED.

Columbus, Nov. 13.—Foot and mouth disease orders issued by the state agricultural commission have caused the quarantine of the governor's hunting dog.

The dog, a pointer named "Toby," was taken to the state veterinary hospital at Columbus for examination.

The dog was found to be infected with the disease and was quarantined for ten days.

The dog was released on Friday and is now at the governor's residence.

German Gains By Yards Only Worry Allies

Having Crossed the Yser River, They Are Being Desperately Opposed, as This Slight Wedge Might Prove an Opening for Operations That Would In Time Give Them a Clear Road to Calais

BRITISH HOLDING YPRES, A BARRIER TO DUNKIRK

Supreme Effort is Undoubtedly Being Made to Reach the Coast, and This is Confirmed By An Official Who Says the Severity of the German Defeat in East Prussia Was Due to Drawing Off So Many Troops to Aid in Western Area.

London, Nov. 13.—An official despatch from Constantinople via Berlin confirms indirectly the recent Russian statement that a Russian fleet has sunk three Turkish transports in the Black Sea.

Leipzig and Dresden Appear

Valparaiso, Chile, Nov. 13.—The German cruisers Leipzig and Dresden steamed into Valparaiso harbor this morning and at once started taking supplies of provisions.
Nothing had been heard of these warships since the battle of Nov. 1.

Report German Cruiser Cornered

London, Nov. 13.—It is rumored among shipping firms in London that the German cruiser Karlsruhe has been cornered.

Report German Submarine Sunk

Paris, Nov. 13.—A special from Dunkirk stated that a French torpedo boat, sank a German submarine off Westende, Belgium.
The submarine, it appears, was trying to torpedo the French warship when the latter's commander caught sight of her periscope, put on full speed and charged down on the enemy which disappeared.

London, Nov. 13.—The territory captured and lost since the two opposing forces joined issue nearly a month ago in the Flanders cockpit could almost be covered by a surveyor's chain. Despite the limitation of the field and the intensity of the fighting, both fronts still breast one another in an unbroken barrier along the Yser. Day by day and foot by foot, the advancements and the retreats are hotly contested and still the final outcome is not in sight.

The Germans have crossed the Yser river, according to the admission in the latest Paris official communication and although the invaders occupy only a few hundred yards on the left bank of the stubbornly contested river, the allies cannot be indifferent to this gain and desperate efforts will be made to drive back this slight wedge.

Ypres, extending like a fortress bastion in the lines of the invaders is still held by the British and unless

the flank attacks on this position are successful, Dixmude is likely to prove a barren gain for the Germans who still find the way to Dunkirk barred.

The theory that the Germans are making an unprecedented attempt on this coast objective is confirmed by an official just returned to Holland from East Prussia, where, he claims, the severity of the German defeat is due to the fact that so many troops have been detached for the effort against Calais.

Little attention lately has been paid to the operations along the river Aisne, but according to late dispatches, fierce fighting recalling the early days of the siege battle there, has been in progress for some time with no great alteration in the line but some slight advantages in favor of the allies.

In the coast battle the latest reports indicate that the Germans, after heavy artillery fire, made infantry assaults, suffering losses much heavier than the defenders.

From the east come reports that Petrograd is expecting to hear a moment that the great battle before Kalisz has been started, while past Krakow and behind a screen of Cossacks, their infantry and artillery in force are said to be within striking distance of the German frontier.

Heavy Penalties Provided For Any Violators of the County Cattle Quarantine

A strenuous campaign will be waged against the foot and mouth disease of cattle in Licking county. Five inspectors are now busy in an endeavor to prevent a further spread of the disease, three from the federal government and two from the state.

Dr. L. R. Fautek of the bureau of animal industry at Washington, is in charge of the work and he is being assisted by Dr. G. A. Handley and Dr. A. R. Smith of the same department, and Dr. D. J. Frame and Dr. A. H. Tuman of the Ohio bureau of livestock industry. These gentlemen have been designated prior to movement of Licking county and the state under the supervision of an inspector of the bureau of livestock industry.

The sheriff and all constables of the county are requested to execute all lawful orders of the agricultural department. All proper expenses incurred in the quarantining of animals shall be paid by the owner.

Health Officer Dr. W. H. Knaum and Paul Fischer, state veterinarian.

REFORM IN OHIO JAILS VERY SLOW

As a Rule These Institutions and Workhouses Are Filthy Places

GENERALLY NO ATTEMPT FOR PRISONERS' WELFARE.

IDEA OF REFORMATION

Is Lost Sight of and They Become Breeding Places for Crime—Keystone of the State Conference of Charities and Corrections.

(ASSOCIATED PRESS TELEGRAM)
Columbus, Nov. 13.—The workhouse and jail situation in Ohio is one of the slowest to respond to modern ideas of reform and humanity. This was the keynote of a number of addresses before the third day's session of the state conference of charities and correction today. Jails are kept in filthy condition and less attempt is made to reform prisoners in these minor prisons than in any other penal institutions of the state, speakers declared.

Rev. D. Frank Garland, director of the department of public welfare, Dayton, urged that workhouses be managed in such a way that prisoners may be taught something useful, instead of being merely confined at drudge work to keep them employed. The reformer's idea was contrasted with the old theory of only punishment, to the praise of the former.

Amos W. Butler of Indianapolis, secretary of the Indiana board of state charities, declared county jails, and workhouses often are breeding places for crime. He recommended the establishment of state farms for persons who commit minor crimes, and the granting of authority to state officials to supervise the management of county prisons and workhouses. He said courts need socializing and that county jails are "the spoils of partisan politics."

"While prison reforms are coming with surprising rapidity, they have been confined largely to the felon," said Mr. Butler. "The misdemeanant has been neglected. We are coming to consider the individual treatment of the offender as the necessary thing, rather than merely regarding the offense and dealing out punishment to suit it."

He declared reforms in penal management of prisons have been effected much more in large state institutions than in the minor prisons. Nearly 1,500,000 persons are confined in the minor prisons every year throughout the country, he said.

Uncrowned Queens.
There have been seven uncrowned queens of England. The first was Margaret of France, the second wife of Edward I. Money was scarce in the government coffers at the time, and Edward could not afford the expense of a coronation. The four later wives of Henry VIII., Anne Boleyn's successors—Jane Seymour, Anne of Cleves, Catherine Howard and Catherine Parr—were never publicly crowned as queen consorts. Perhaps it was because Henry thought it would cause ridicule to have coronations occur as frequently as his marriages. Henrietta Maria, the wife of Charles I., being a strict Catholic, refused to take part in a state function which would compel her to partake of the Sacrament, according to the rites of the Church of England. Sophia Dorothea, the wife of George I., and mother of George II., was never recognized as queen of England and therefore cannot be classed as one of Britain's uncrowned queens. Caroline of Brunswick, the wife of George IV., was not permitted to be present in Westminster hall at his coronation.—London Mail.

SIMPLE WAY TO END DANDRUFF

Stop Falling Hair and Itching Scalp.

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve it, and entirely destroy every single grain and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you value your hair, you should get rid of dandruff at once, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and falling, and everybody knows it.

BREAKS A COLD, OPENS CLOGGED HEAD AND NOSE

Relief comes instantly.

A dose taken every two hours until three doses are taken will end gripe, misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and sniffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.

Japanese Food Boxes.
"Japanese dishes fail to satisfy American cravings," says an officer in the United States army. "Imagine a diet without milk, bread, butter, jam, coffee, salad or any sufficient quantity of nicely cooked vegetables without pudding, stewed fruit and with comparatively little fresh fruit. The European vegetarian will find as much difficulty in making anything out of it as the ordinary meat eater. Along the main railroad artery neat little boxes of Japanese food (bento) are offered for sale at the principal stations at a cost of 7 1/2 cents; also pots of tea, including teapot and earthen teacup, for 2 cents. The bento may contain in neat separate compartments prawn fish, chicken, rice, preserved ginger, Johnny cake, omelette, a broiled mushroom, a slice of radish, glazed beans, kind of sweet pickle, tripe, a slice of cooked chestnut, licorice, etc. The bento is inviting to the eye, is garished in green, is neatly wrapped and the contents varied as the resources of the locality admit."—New York Mail.

A Famous Window.
York minister, in addition to its many other notable features, contains one of the most remarkable windows in the world—the east window, which is the largest in England, except that in Gloucester cathedral. It is seventy-five feet high and thirty-five feet broad. The window is divided into 200 compartments, all of which illustrate leading events in sacred history. Each pane of glass is three feet square, the figures measuring two feet four inches high. The upper part is filled with beautiful tracery and is divided from the lower by the narrow stone gallery which runs across. John Thornton of Coventry began the window in the year 1405. The ancient glazing, all of which he executed with his own hands, stands unequalled to the present day, and for this enormous task he received as wages 4 shillings a week for three years and £10 on completing his work to the satisfaction of the cathedral authorities.—London Graphic.

When Photography Was New.
When photography first began they used wet plates and a sitting required eight or nine minutes. A man once went to be taken, and the photographer put in his wet plate, demanded perfect immobility and took off the cap.

During the long exposure the photographer left the room a moment. On his return everything seemed to be going all right. But when the exposure ended and he rushed to his closet to develop the wet plate there was nothing on it but a blur.

Very much disgusted, he showed this blur to the sitter.

"You must have moved," he said.

The sitter looked at the spoiled plate and laughed to amazement.

"Well, I declare," he said, "who'd have thought that just running over to the window for a minute to see a drunken man would have done all that? I sat right down again."—Minneapolis Journal.

Baldness.
Men get bald more frequently than women, according to Dr. Guelpa of Paris, because they wear hard, heavy hats, they cut their hair too short and they eat more than women. Dr. Guelpa says the scalp is like soil and the hair like the vegetation that grows upon it. When the scalp is neglected the hair does not grow and its roots die, just as grass dies when the soil is poor. A heavy, hard hat constricts the blood vessels that nourish the scalp. Clipping the hair short leaves its tender roots at the mercy of cold, heat and dust. The oil that exudes from around the roots of the hairs and keeps them nourished is constricted by the cold and chokes up the matrix in which the hair is formed.—New York World.

Cautious Courtship.
A Scottish farmer's son had the misfortune to fall in love with two young ladies at once. The one was a tall, strapping girl, while the other was small and slim. The puzzled lover at last asked his father's advice. "Well," said his father, "there's one machine used in farming nowadays, that a big, active wife is no use to me, so I advise ye to take the little one. She'll eat less, or yea?"

Paragon of Parrots.
Customer: But is he a good bird? I mean, I hope he doesn't use dreadful language. Dealer: Is a saint, lady; Shakespear beautiful. I had some parrots you used to swear something awful, but if you'll believe me, lady, this one had converted the lot.—London Bystander.

Two Things He Hadn't Done.

Here's a Surprise----The Best News of The Season

Our Semi-Annual Sale Of Ladies' Suits

This Really Important Event Commences Tomorrow Morning at 8 O'clock

This has been a wonderful suit season for this store. In fact, the greatest we have ever had. It has made us feel elated, for you have placed your stamp of approval, more than ever before, upon our methods and merchandise. Now for the story of this Surprise Sale, as we call it. Our buyer had the opportunity to purchase at a decided reduction, one hundred suits from a manufacturer who had too many garments on hand for this time of the year. These combined with our own regular stock will make just about two hundred suits to be sold during this sale. The styles are authentically correct, including the Redingotes, in various new models, medium length jackets and strictly tailored effects. Made from wool poplins, broadcloth, diagonals, pebble chevrons, shadow crepes, Mannish serges, and imported novelties in such popular shades as black, navy, copen, Russian green, wistaria, plum, and the several new tones in brown. This assortment contains a most complete range of sizes—junior sizes 13 to 19; misses' sizes 14 to 18; ladies' regular sizes 34 to 44, and stout sizes 39 to 51. This sale, coming as it does, nearly a month before schedule time, presents one of the greatest buying opportunities that has been offered in many a day. The element of chance is also eliminated as every garment measures up to the high standards of style and quality that this store has always maintained. The materials are all wool, the linings guaranteed and tailoring that leaves nothing desired. Besides these three important features, many other little details are noticeable that all help to make the idea garment. If you haven't purchased your fall suit, it will more than repay you to be here the first thing in the morning for values such as this sale offers are rare indeed, and not to be equaled elsewhere. If you appreciate high grade tailored garments at prices much less than are asked for inferior qualities, you will certainly take advantage of this unusual, but timely event.

Asthma-Catarrh and Bronchitis

Can Be Greatly Relieved by the New External Vapor Treatment.

Melt in a spoon a little Vick's "Vapo-Rub" Croup and Pneumonia Salve and inhale the vapors. Put a little up each nostril and at night apply well over throat and chest, covering with a warm flannel cloth. Leave the covering loose around the neck so that the vapors of Menthol, Thymol, Eucalyptol, Camphor, and Pine Tar, that are released by the body heat, may be inhaled all night long. In Asthma and Hay Fever rub Vick's over the spinal column to relax the nervous tension. This treatment is not a "cure," but it has at least the merit of containing no harmful drugs and it is sold by all druggists in 25c, 50c, and \$1.00 jars, on thirty days' trial. Vick's is also excellent for all croup and cold troubles.

VICK'S Croup and SALVE

Easy to Forgive.

A business man made an appointment with a friend a few days ago, and when the time rolled around he forgot the matter entirely.

The incident worried him so much that he dreaded to meet the friend and for several days tried to keep out of the latter's way.

Finally, however, the inevitable happened, and the two met face to face in the lobby of a downtown club.

Before the business man could voice his explanation the friend extended his hand and began to apologize humbly:

"I must beg your pardon, old chap, but really I quite forgot about our engagement the other day, and I am indeed very sorry to have disappointed you."

When he fully recovered from the shock the business man exclaimed, with a magnificent wave of his right hand:

"Don't worry, old man; even the best of us sometimes forget to forgive."

OUTERBRIN CLUB'S MONTHLY MEETING.

The Outerbrin Club of Teachers, E. W. Chasen, held their regular monthly meeting at the home of Mrs. Jeanne Martin on Tenth street, last night. After a short prayer, the club was taken up and a report was made of the club's work in the past month. The meeting was conducted by Miss Mary Morrison, and was followed by a chapter from the study book by Miss Morrison. The evening offering

which was taken for Miller Seminary in Ohio amounting to \$2.41 was then taken, and after a pleasant lunch served by the ladies all adjourned to do more for the missionary work than ever before.

GRATNOT W. C. T. U.

Gratnot, O., Nov. 12.—The W. C. T. U. held its regular meeting Nov. 11th, at the M. P. church. Mrs. Dean of Brownsville, opened the meeting and gave an interesting and profitable talk in the interest of union work. All the members present expressed their sorrow over the election, and said they would not be discouraged but work harder, pray more and expect that Ohio shall yet be dry. Services closed with temperance devotions and benediction.

TRUE AIM

OF TRAINED NURSE WHO SENT THREE BULLETS INTO MISS LONARDE BREWER'S BODY

Woman Claims She Killed in Defence of Herself and a Female Companion.

(ASSOCIATED PRESS TELEGRAM)
San Antonio, Texas, Nov. 12. — Miss Emma Burgenmeister, a trained nurse, at whose home Otto Koehler, millionaire president of the San Antonio Brewing Association was shot and killed last night, was today believed to be in no danger from the wound in her wrist which she is said to have inflicted after the death of Koehler. She is said to have declared she shot Koehler to protect herself and Emma Daschiel, another trained nurse, who resided with her. Mr. Koehler had driven to Miss Burgenmeister's home in his buggy and was admitted by Miss Daschiel. A few moments later three shots were fired and when the neighbors rushed in they found Mr. Koehler dead on the floor of Miss Burgenmeister's bedroom.

One bullet had broken his neck, another had penetrated the skull just below the left eye, and a third had entered the breast. Miss Burgenmeister was kneeling beside the body bleeding from a wound in her left wrist which evidently had been made by a case knife found at her side. Miss Burgenmeister has been placed in a hospital under police guard, and Miss Daschiel is under surveillance.

Miss Burgenmeister is about 35 years old and is declared to have come to San Antonio from Germany, her native land, four years ago. In company with Mr. and Mrs. Koehler during one of their visits to Europe, immediately after the tragedy it was declared that Miss Burgenmeister was a trained nurse and had been retained as the companion of Mrs. Koehler who has been in ill health for years. Today however, members of the family emphatically denied she had ever served in that capacity and insisted she was unknown at the Koehler home.

Otto Koehler was 39 years old and was recognized as one of the richest men in the southwest.

ON THE FIRING LINE.

What it means to most men.

There are many true heroes that have perished in the European war who "never smelled powder," but who succumbed to sickness after hard campaigning—coupled with bad water and lack of food. The sick and debilitated man is as much out of place in his struggle for life and existence as he would be on the firing line. On the other hand the strong, vigorous man, his veins filled with rich, red blood, has an enormous advantage in whatever position he may be called to occupy, in war or business.

The prompt and certain action of Dr. Pierce's Golden Medical Discovery in driving all harmful germs and impurities from the blood, sets in motion the repair process which works actively on the diseased membrane where Catarrh flourishes unchecked or where the skin gives warning of the bad blood beneath by showing pimples and boils, also the skin clears up and becomes, wholesome and ruddy.

Thus by building up a new and perfect covering and carrying out of the system the Catarrh infested matter by way of the blood, liver and kidneys, Catarrh is overcome and permanently conquered.

There is not a drop of alcohol or any narcotic in Dr. Pierce's Golden Medical Discovery, but in this safe vegetable remedy there is a mighty alternative power which by replacing the blood impurities with pure, rich blood, not only ends Catarrhal conditions wherever located, but vitalizes the kidneys, stomach, liver, bowels and every organ of the body. People who suffer humiliation and mental misery because of Pimples, Skin rash, Blisters, Eruptions, Boils, Carbuncles, are especially benefited. It is not a secret remedy but its ingredients are printed on wrapper.

All dealers in medicines can supply Dr. Pierce's Golden Medical Discovery, or send 50 cents in one cent stamps to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for trial box of tablets.

Guy Torley, Famous Cyclist, Recovered After 13 Days Rheumatism.

Had Been a Cripple on Crutches—Spent \$200 Seeking Relief.

If you are a chronic sufferer from rheumatism, do not give up hope. Go to T. J. Evans on any druggist and get a bottle of Rheumatism Remedy.

summer I was so crippled with sciatic rheumatism I could not walk without crutches. I spent over \$200, but received no help. I had tried nearly everything, but was finally persuaded to try Rheumatism Remedy. By the time I had taken three bottles the rheumatism had entirely left me. Since then I have sent Rheumatism Remedy to every friend whom I knew had rheumatism. Two have already told me it has cured them. Will answer all letters sent to my home address, 265 Dayton avenue, St. Paul, Minn.—Guy Torley.

Rheumatism will do just as much in your case. It does out all uric acid poison, brings swollen joints to normal, reduces the pain, and restores the whole system without the least injury to the heart. If it fails your druggist will return your money.

Montenegro's Stones.
Montenegro has, after all, some reason to be grateful for its stones. "It is in these stones," writes William Miller, "that the Black mountain has found its best fortifications—for artificial forts it has none—and it was not till the time of the present prince (now King Nicholas) that the Napoleonic idea of making a road across the country was carried out. Even now it is not by any means certain that this improved means of communication will not be a source of danger in the future."

Sightseeing.
The visitor from Wyoming was seeing New York under the guidance of his friend Washington Square.

"I'd like to see the zoo," he said. "I have read about it for years. How do we get to it?"

"Search me," said Mr. Square. "I've never been there."

"And you have lived in New York all your life? That's humorous."

Later the New Yorker confided to his friend that one of his fondest ambitions was to see Yellowstone park "it must be glorious out there among all those mountains and geysers and lakes," he said. "You know all about it, of course, coming from Wyoming as you do."

"To tell the truth," replied the westerner, "that's a place where I have never been."—Newark News.

Dealing With Thoughts.
No thought is ever lost. The dye of it stains the mind.

A love thought without the deed is better than a love deed that is not born of thought.

Thoughts are things. You are thoughts. The world is thoughts. Learn to deal with thoughts as with realities, and so to mold your life from within and not to have it shaped by the hazard from without.

"Life," said Marcus Aurelius, "is what our thought makes it," and the appeal of holy writ is, "Let the unrighteous man forsake his thoughts."—Dr. Frank Crane in Woman's World.

London's First Steam Bus.
Lady Dorothy Nevill, who remembered when sedan chairs were used, remembered, so and mentions in her reminiscences the first London steam bus, which ran for the first time in 1823. The inventor was Walter Hancock, and the first appearance of the vehicle, a cumbersome affair named the "Hancock," created much excitement. It carried fourteen passengers and ran from Paddington to the bank at a charge of sixpence all the way. Its success was due to the introduction of several other buses, but they were withdrawn in consequence of the turnpike acts of 1829.

Picture-que Importance.
Dumas was an artist's studio once when a lady asked his advice about two famous pictures she had. She could not tell up her mind whether to sell them or not, and she consulted Dumas.

"My good lady," said the novelist, "these pictures you are an interest in. If you sell them you will lose nobody. Keep them!"

"The Storm."
"Daughter, I her been must have married."

"Why so?"
"Five per cent of candy, a bunch of matinee tickets have just arrived."

"The American."
"The American cost of the nation's ship."

Who Will Start?

While America is neutral in the great war, it is only natural that the sympathy of many people in this country should go to Germany and that of many others just as earnestly hope for victory to rest with the allies. While sentiment is divided, the American people are unanimous in their sympathy for little Belgium which has been impoverished by the conflict and where millions of people are in distress.

Many communities are expressing their sympathy in a practical way—by giving. While some little effort has been made here in Newark nothing of consequence has been accomplished as yet. A charity ball is to be given at Assembly Hall tonight for the benefit of the destitute women and children of Europe but aside from a few small subscriptions nothing further has been done by Newark, so far as known, to relieve the great distress in Europe.

Over in East Liverpool yesterday a fund of \$800 was forwarded by the church and salvation army and with the money was sent several boxes of dolls and toys as Christmas gifts for the people of war stricken Europe. East Liverpool is a smaller town than Newark. Many other cities are raising money and contributing clothing, toys and other articles to be sent abroad as a Christmas offering to those whose hearts need cheer.

If the Federation of Newark clubs, the churches, the Board of Trade or some other organization will "start something" the people of Newark will be found to be as generous as their means will permit.

The Advocate will be glad to contribute to such a fund and will otherwise assist any organization that will undertake the work. The people of Belgium need help.

ASTRONOMICAL EVENTS.

Eveing stars: Jupiter, Mars, Venus. Morning stars: Saturn, Mercury. Shooting stars visible all night, due to the earth passing through a stream of these tiny objects.

Theatrical Vicissitudes.

Many theatrical companies have been cancelling their dates this fall owing to poor receipts. This is the age of moving pictures, and of the repertory companies that play for "ten, twenty, and thirty." The enormous patronage given this class of entertainment has led many people to believe that there is now but a very limited field for high grade companies.

Certainly there were never so many poor actors on the road as now. A player may come on the stage in a dress suit, undertaking to present the part of a finished society man. Very likely he wears his hat in the presence of ladies, and rips around the stage like a cow-boy. If the audience wants thrills, gun-play, moral shock, sexual looseness, it does not seem to care much whether the types seen on the stage have any likeness to real life or not.

Every press agent advertises his play as the greatest success of the season. The dictionary is exhausted to find adjectives to describe its sparkle, force and charm. The theatre-goer pays down his money, and may find that it is flashy, tawdry, and the acting poorly done. Next time he goes to the moving pictures or the cheap repertory company.

There is still, however, an enormous public of intelligent people who know a real actor when they see him. Many of them live away out in the country, and treasure a visit to some town or city theatre as a choice for many months.

Automobile Growth.

Much has been said and written about the marvelous growth of the automobile industry and everybody knows that its progress in the past few years has not been equalled in any other line of manufacturing.

At a recent meeting of the Bankers' association at Richmond, Va., figures were given showing that there are 1,400,000 automobiles in use in this country, and that it is estimated 450,000 more will be made and marketed during the next 12 months.

There are 450 listed manufacturers of automobiles. It is interesting to note that the commercial side of the business is attracting more makers than that of making pleasure vehicles. In the latter class there are 170 manufacturers, while 245 make commercial machines of one kind and another. There are 77 makers of cycle cars, 27 of motor fire apparatus, 18 of electric pleasure vehicles and 24 of electric commercial vehicles.

It is stated that the value of the product last year was nearly \$35,000,000.

It is said that 47% of the cost of the automobile goes into labor.

A man who wants a shave "two days under the skin" at Zanesville, now asks the barber for a Mooney shave. Mr. Mooney defeated Congressman White by less than a hundred votes.

Spirit of the Press

Foot and Mouth Disease.

A New York doctor says that human beings can take the foot and mouth disease, and that children are particularly susceptible to it. Simultaneously the New York papers announce that a child of six got his foot into his mouth, and medical assistance was needed to extricate it, and the child is now nursing a badly sprained leg.—Philadelphia Record.

Why Is It?

It is peculiar that a man who owns a bunch of cattle will go out to look at them every few days, but not once during the whole year will you catch him at the school house where his children are getting their education.—Kansas Phoenix.

What Were the States Doing?

Nothing less than appalling is the epidemic of the infectious foot and mouth disease, at a time when food is already held at war prices. Delaware is the twelfth Rhode Island may be the thirteenth state to be quarantined. The disease seems to have appeared near New York City. With the agents of the federal government upon its trail, it will be intelligently pursued and may be stamped out before great harm is done. The almost incalculable injury which such diseases may do is a commentary upon the folly of those states that permit their departments of agriculture to be the refuge of politicians instead of the workshops of scientists. What do these states purpose to do about it? Must everything be left to federal authority?—New York World.

What Bombardment Means.

When I saw it for the first and last time it was a place of death and horror. The streets through which we passed were utterly deserted and wrecked from end to end, as though by an earthquake. Incessant explosions of shell fire crashed down upon the walls, which still stood. Great gashes opened in the walls, which then toppled and fell. A roof came tumbling down with an appalling clatter. Like a house of cards blown by a puff of wind, a little shop suddenly collapsed into a mass of ruins. Here and there, further into the town, we saw living figures. They ran swiftly for a moment, and then disappeared into dark caverns under toppling porticoes. They were Belgian soldiers.—New York Times.

Leaders In War.

Lord Kitchener praised General Joffre, the French commander in chief, at a meeting in the Guildhall, London, Monday night. He declared that he was not only a great military leader but a great man. Kitchener is known as a man not greatly given to speech and not at all jeffred to praise. The tribute to Joffre no doubt represents his unbiased opinion of an expert. And to the lay view it seems to be quite justified by Joffre's conduct of a fair. But efficiency is not confined to the French and English commanders. One of the astonishing things about the whole war is the apparently high level of ability shown by the commanders of the French, English, German and Russian armies. There have been no disasters and changes of leadership such as other wars have witnessed. There has been no experimental stage during which a real leader was being developed and was being loudly called for by public opinion. Not one of these leaders has proved a failure.—Chicago Herald.

Pointed Observations

Doctors often disagree but the diagnosis of the undertaker always stands.—Zanesville Times Recorder.

The sword ought never to be sheathed, it ought to be broken. The spoils of this war ought to be not new territory for victors, nor destruction for the vanquished, but disarmament for victors and vanquished alike. All national armaments must be destroyed. Business never gets so good with some men that they don't think it is going to begin to fall off next week.—Atkinson Globe.

We make some progress. There was a time when a joke about a cat and a bootjack was considered the highest form of humor.

The people of our community will be glad to learn that the destitution in the Abe Whitlad family has been temporarily relieved, but that contributions still are required and will be thankfully received. Thrown to the Wolves.

A story of a father's desperate act in throwing his child to the wolves is related by the Astrakhan correspondent of the Viedetosti. A peasant named Grusneijoff, accompanied by his wife and four-year-old child, it is stated, was traveling by sleigh to Volchinsk. Toward dusk, when only a few miles from the town, he suddenly came on a pack of wolves. Grusneijoff's wife in her terror suggested that he should appease the beasts by flinging them the child. This the man at first refused to do, continuing to belabor his horses. At length, seeing that the wolves were gaining on the sleigh, he flung the child into the road. His sacrifice was in vain, for the wolves, discarding the living bundle, flew to the attack with renewed fury and at length dragged the peasant from the sleigh. When the horses arrived in the town the woman was found lying unconscious in the sleigh. The child, which had not suffered the slightest injury, was found sleeping on the road.

A Wandering Scot's Tribulations.

A Glasgow man who recently took up residence in London, says the Glasgow News, selected from the people answering his advertisement for rooms a laudably boasting the name of Mackay. That name, even without the lady's protestations, convinced him that he was going to a "home from home." On arriving, his pleasurable anticipation was increased when he was informed that it was "taken for granted" he would have porridge for breakfast. He was astounded, however, to find the oatmeal served cold and sold and profusely sprinkled with parsley. Something approaching a scene occurred when he intimated to the lady that he required the dish brought hot and fresh and without vegetable embellishment. With a gesture of despair she led him to the kitchen, where on the shelf was a row of bowls containing his weekly supply of parsley decorated porridge!

Our Musical Nerves.

Everybody who has been to the dentist knows only too well that the teeth have nerves connected with them. These nerves lead to certain knots of nerve tissue called ganglia, from which also proceed other nerves that pass to the auditory chambers of the ear. If you grind your teeth ever so slightly you will find that you hear the sound very distinctly. The vibrations caused by grinding are conveyed to the auditory chamber, where a series of pyramidal cells of varying lengths are so arranged as to operate like keys of a piano. These cells, each of which responds to a particular note, are connected by nerve threads, like piano wires, with the main nerve of hearing—a complex and beautiful arrangement to which we owe our power to appreciate the exquisite harmonies of music.

Starved Himself to Death.

Hunger strike records were broken some years ago by a Frenchman named Granie, who was arrested for murder in circumstances which left no doubt as to his guilt. He determined to starve himself to death in order to escape the guillotine and from the day of his arrest refused to eat. In spite of every effort on the part of the prison authorities, who first tried tempting him to eat by placing the most dainty meals in his cell and when that failed attempted forcible feeding, Granie held out for sixty-three days, at the end of which time he died.

A Renewed Struggle.

"My old barber has left the city." "You seem very regretful." "Yes, he had been trying to sell me a bottle of hair tonic for the past fifteen years, and so far I had succeeded in standing him off. Now I shall have to start the battle all over with a new man."—Louisville Courier-Journal.

A Grave Danger.

"Madam, your pet Pekinese spaniel bit one of the children on the street in the face this morning."

"Good heavens, my poor little dog! I know none of the children about here have their faces antiseptically washed."—Baltimore American.

WITHOUT A MORAL.

The (Zar of Russia said, said he, "This vodka stuff, 'twixt you and me, is causing ruin; and now that we have war on hand, we'll tell the brewers of the land, to quit their brewing." While warfare thus our country shakes, my soldiers mustn't have the sunnies, 'twould put them under; but when this conflict grim is over, the grog bazzars may sell once more their liquid thunder." Fast flew the order of the (Zar, to every village, near and far; the vodka dealers, put up their shutters with a rush, and no one broke the booze den's hush but watchful peelers. In four short weeks, the story goes, a new and better Russia rose, a change stupendous; the loafers, sudden once with drink, went bravely forth to earn some chink, with vim tremendous. And in the towns poor broken bags, and outcasts rotting in their rags, their pride recovered; the peasants to their labors bent, prosperity an sweet content above them hovered. Then said the (Zar, "By my right hand, the change around me beats the land, I do endorse it! And though the booze dispenser weeps, I'll close those vodka joints for keeps, or tear my corset!"

On What Happiness Depends.

A little thought will show you how vastly your own happiness depends on the way other people bear themselves toward you. The looks and tones at your breakfast table, the conduct of your fellow workers or employers, the faithful or unreliable men you deal with, what people say to you on the street, the way your cook and housemaid do their work, the letters you get, the friends or foes you meet—these things make up very much of the pleasure or misery of your day. Turn the idea around and remember that just so much are you adding to the pleasure or misery of other people's days. And this is the half of the matter which you can control. Whether any particular day shall bring to you more of happiness or of suffering is largely beyond your power to determine. Whether each day of your life shall give happiness or suffering rests with yourself.—George S. Merriam.

The Beautiful Lyre Bird.

The largest and handsomest of all the song birds is the lyre bird. Its home is in Australia, where its song is heard morning and evening. It is heard oftener in winter than in summer. The chief beauty of the lyre bird is in the plumage of its tail, which is elegant and in the form of an ancient lyre. While singing the lyre bird spreads its tail over its head like a peacock and droops its wings to the ground. This bird is not only a fine songster, but can imitate the songs of all birds. One living near a wood sawyer's hut even imitated the sound of the filing of saws. The crowing of cocks, the cackling of hens, the barking of dogs and the meowing of cats are within its range. Its own song is also different from that of other birds, being a louder and fuller tone.

Who Will Start?

While America is neutral in the great war, it is only natural that the sympathy of many people in this country should go to Germany and that of many others just as earnestly hope for victory to rest with the allies. While sentiment is divided, the American people are unanimous in their sympathy for little Belgium which has been impoverished by the conflict and where millions of people are in distress.

Many communities are expressing their sympathy in a practical way—by giving. While some little effort has been made here in Newark nothing of consequence has been accomplished as yet. A charity hall is to be given at Assembly Hall tonight for the benefit of the destitute women and children of Europe but aside from a few small subscriptions nothing further has been done by Newark, so far as known, to relieve the great distress in Europe.

Over in East Liverpool yesterday a fund of \$800 was forwarded by the church and salvation army and with the money was sent several boxes of dolls and toys as Christmas gifts for the people of war stricken Europe. East Liverpool is a smaller town than Newark. Many other cities are raising money and contributing clothing, toys and other articles to be sent abroad as a Christmas offering to those whose hearts need cheer.

If the Federation of Newark clubs, the churches, the Board of Trade or some other organization will "start something" the people of Newark will be found to be as generous as their means will permit.

The Advocate will be glad to contribute to such a fund and will otherwise assist any organization that will undertake the work. The people of Belgium need help.

ASTRONOMICAL EVENTS.

Evening stars: Jupiter, Mars, Venus. Morning stars: Saturn, Mercury. Shooting stars visible all night, due to the earth passing through a stream of these tiny objects.

Theatrical Vicissitudes.

Many theatrical companies have been cancelling their dates this fall owing to poor receipts. This is the age of moving pictures, and of the repertory companies that play for "ten, twenty, and thirty." The enormous patronage given this class of entertainment has led many people to believe that there is now but a very limited field for high grade companies.

Certainly there were never so many poor actors on the road as now. A player may come on the stage in a dress suit, undertaking to present the part of a flushed society man. Very likely he wears his hat in the presence of ladies, and rips around the stage like a cowboy. If the audience wants thrills, gun-play, moral shock, sexual looseness, it does not seem to care much whether the types seen on the stage have any likeness to real life or not.

Every press agent advertises his play as the greatest success of the season. The dictionary is exhausted to find adjectives to describe its sparkle, force and charm. The theatre-goer pays down his money, and may find that it is flashy, tawdry, and the acting poorly done. Next time he goes to the moving pictures or the cheap repertory company.

There is still, however, an enormous public of intelligent people who know a real actor when they see him. Many of them live away out in the country, and treasure a visit to some town or city theatre as a choice for many months.

Automobile Growth.

Much has been said and written about the marvelous growth of the automobile industry and everybody knows that its progress in the past few years has not been equalled in any other line of manufacturing.

At a recent meeting of the Bankers' association at Richmond, Va., figures were given showing that there are 1,400,000 automobiles in use in this country, and that it is estimated 450,000 more will be made and marketed during the next 12 months.

There are 450 listed manufacturers of automobiles. It is interesting to note that the commercial side of the business is attracting more makers than that of making pleasure vehicles. In the latter class there are 170 manufacturers, while 245 make commercial machines of one kind and another. There are 77 makers of cycle cars, 27 of motor fire apparatus, 18 of electric pleasure vehicles and 24 of electric commercial vehicles. It is stated that the value of the product last year was nearly \$35,000,000.

It is said that 47% of the cost of the automobile goes into labor.

A man who wants a shave "two days under the skin" at Zanesville, now asks the barber for a Mooney shave. Mr. Mooney defeated Congressman White by less than a hundred votes.

Considering the high cost of gasoline, rubber tires, and teachers of modern dancing, there are widespread complaints of a hard winter coming.

The women have evidently convinced Montana and Nevada that suffrage would not imperil the quality of apple pie.

After studying the results of election, it is easy to understand why few political prophets ever get a job in the weather bureau.

Baseball players' salaries are likely to be reduced next year and the poor fellows may not be able to get any more than college presidents.

Foot and Mouth Disease.
A New York doctor says that human beings can take the foot and mouth disease, and that children are particularly susceptible to it. Simultaneously the New York papers announce that a child of six got his foot into his mouth, and medical assistance was needed to extricate it, and the child is now nursing a badly sprained leg.—Philadelphia Record.

Why Is It?
It is peculiar that a man who owns a bunch of cattle will go out to look at them every few days, but not once during the whole year will you catch him at the school house where his children are getting their education.—Kansas Phoenix.

What Were the States Doing?
Nothing less than appalling is the epidemic of the infectious foot and mouth disease, at a time when food is already held at war prices. Delaware is the twelfth, Rhode Island may be the thirteenth state to be quarantined. The disease seems to have appeared near New York City. With the agents of the federal government upon its trail, it will be intelligently pursued and may be stamped out before great harm is done. The almost incalculable injury which such diseases may do is a commentary upon the folly of those states that permit their departments of agriculture to be the refuge of politicians instead of the workshops of scientists. What do these states purpose to do about it? Must everything be left to federal authority?—New York World.

What Bombardment Means.
When I saw it for the first and last time it was a place of death and horror. The streets through which we passed were utterly deserted and wrecked from end to end, as though by an earthquake. Incandescent explosions of shell fire crashed down upon the walls, which still stood. Great gashes opened in the walls, which then toppled and fell. A roof came tumbling down with an appalling clatter. Like a house of cards blown by a puff of wind, a little shop suddenly collapsed into a mass of ruins. Here and there, further into the town, we saw living figures. They ran swiftly for a moment, and then disappeared into dark caverns under toppling porticoes. They were Belgian soldiers.—New York Times.

Leaders in War.
Lord Kitchener praised General Joffre, the French commander in chief, at a meeting in the Guildhall, London, Monday night. He declared that he was not only a great military leader but a great man. Kitchener is known as a man not greatly given to speech and not at all wedded to praise. The tribute to Joffre no doubt represents his unbiased opinion of an expert. And to the lay view it seems to be quite justified by Joffre's conduct of affairs. But efficiency is not confined to the French and English commanders. One of the astonishing things about the whole war is the apparently high level of ability shown by the commanders of the French, English, German and Russian armies. There have been no disasters and changes of leadership such as other wars have witnessed. There has been no experimental stage during which a real leader was being developed and was being loudly called for by public opinion. Not one of these leaders has proved a failure.—Chicago Herald.

Thrown to the Wolves.

A story of a father's desperate act in throwing his child to the wolves is related by the Astrakhan correspondent of the Viedemosti. A peasant named Grusneijoff, accompanied by his wife and four-year-old child, it is stated, was traveling by sleigh to Volchun. Toward dusk, when only a few miles from the town, he suddenly came on a pack of wolves. Grusneijoff's wife in her terror suggested that he should appease the beasts by flinging them the child. This the man at first refused to do, continuing to belabor his horses. At length, seeing that the wolves were gaining on the sleigh, he flung the child into the road. His sacrifice was in vain, for the wolves, discarding the living bundle, flew to the attack with renewed fury and at length dragged the peasant from the sleigh. When the horses arrived in the town the woman was found lying unconscious in the sleigh. The child, which had not suffered the slightest injury, was found sleeping on the road.

BRITISH LOSS IS ABOUT 50,000 MEN

(ASSOCIATED PRESS TELEGRAM)
London, Nov. 13.—The British
casualties in the war up to October

thousand men of all ranks. This
estimate was given by Premier As-

Mr. John also desired information

Premier Asquith, in reply to Mr.

most is that it strengthens and
regulates your stomach so you can
eat your favorite foods without fear.

Most remedies give you relief
sometimes—they are slow, but not
sure. "Pape's Diapepsin" is quick,
positive and puts your stomach in a
healthy condition so the misery won't
come back.

You feel different as soon as
"Pape's Diapepsin" comes in contact
with the stomach—distress just
vanishes—your stomach gets sweet,
no gases, no belching, no eructations
of undigested food, your head clears
and you feel fine.

Go now, make the best investment
you ever made, by getting a large
fifty-cent case of Pape's Diapepsin
from any drug store. You realize
in five minutes how needless it is
to suffer from indigestion, dyspepsia
or any stomach disorder.

Readers' View Point

The Advocate assumes no respon-
sibility for the opinions expressed in
the column headed "Readers' View-
point." Communications from our
readers should be short, plainly
written and should be signed though
the signature will not be printed if
it is so requested. These commu-
nications should be upon subjects in
which there is general interest and
they must be free from abuse or ex-
travagant statements that tend to
provoke controversy.

Thank You.

Editor of Advocate:—I wish to
again express my appreciation of
Pastor Russell's sermons. When I
get Monday's paper and look it over
and find that it isn't there, it seems
as though there is something lack-
ing. I have been very much inter-
ested in the seemingly fulfillment of
prophecy in connection with this late
war as pointed out by him. When I
fail to get the sermon, I am afraid
that he has probably had something
to say that I won't be able to get,
and therefore lose the connections as
things proceed.

I also like the paper very much
in other ways.

I think the news is very much up
to date and I also like the way you
headline your articles, it not being
necessary to read the article as a
whole in order to know what is in
it.

Very truly yours,
MR. H. M. WARMAN

Editor Advocate:—Each day
practically every day the writer
receives inquiries from Newark say-
ing: "Saw your advertisement in the
Advocate" and the first of the year
wish to buy space for a year. My
paper arrives each morning at 8:06
and I look as much at it as the
Cleveland Plain Dealer. You certainly
have a live, wide-awake paper, one
that brings results in the way of ad-
vertising as well as giving all the
late news.

THANKS TO THE NERV-WORTH AND THE EVANS' DRUG STORE

Grateful Words Uttered by Newark
User of the Wonderful
Nerv-Worth.

"Stomach trouble, nervousness and
sleeplessness have laid heavy burdens
on my health and comfort for years.
Indeed, until I began taking Nerv-
Worth, I had suffered with nervous
troubles nearly all my life, more or
less. I am the mother of ten chil-
dren, seven girls and three boys, and
my nerves gave out, and although I
doctored with many physicians none
seemed to do me any good. With
Nerv-Worth it was very different. One
bottle of that wonderful medicine has
given me better rest at nights than I
have had for years. I do not wake up
at intervals as I used to do, but sleep
the whole night through, thanks to
Nerv-Worth and the Evans' Drug
Store. In three weeks Nerv-Worth
has done me more good than any-
thing else. I am now taking my sec-
ond bottle of it, as my law was a bad
one, and I want all the lasting results
that are possible. To those who suf-
fer with stomach trouble or nervous-
ness, I say with all my heart, TAKE
NERV-WORTH."

This is the telling written state-
ment given by Mr. J. J. Evans, prop-
rietor of the Hotel Warlow Building,
Drug Store by Mrs. Edna Varney of
271 North Fourth street, Newark.
Her gratitude as a Nerv-Worth user
is manifested in the foregoing. Others
are following Mrs. Varney's example in
thanking Nerv-Worth and Mr. Evans.
By the way, say this experienced drug-
gist and ask him about Nerv-Worth.
He will give you a free sample dose.
Your money back if Nerv-Worth does
not help you.

PIG ROAST

ENJOYED BY A NUMBER OF
GUESTS AT ELKS CLUB
THURSDAY NIGHT

Impromptu Speakers After a Sumptuous Banquet Whited Away - a Pleasant Evening.

Over two hundred Elks participated Thursday evening in a pig roast banquet at the Elk club, the hosts being Herbert Webber, Homer Jones, Johnny Bader, Otto Vogelmeier, Joseph Shrier, Capt. Charles Swank, Dr. H. G. Withers.

The roast was prepared by Caterer Joseph Kuster, Jr., and he was assisted by Steward William Hohl and those two gentlemen prepared a feast fit for a king. In addition to the young pig there were many other good things and Messrs. Kuster and Hohl were the recipients of many compliments for the excellent manner in which the banquet was arranged and served.

After everyone had had their fill of the good things, order was called and Mr. Herbert Webber was introduced as the master of ceremonies. He made a neat little speech, telling that the roast was the result of an election bet and that the winners were more than pleased to pay their obligation. Mr. Webber proved a pleasing orator and concluded his remarks by introducing Capt. Charles Swank, successful candidate for sheriff at the late election. Captain Swank told of his canvass, thanked his friends and promised to treat them all right any time they came to jail after he assumed office.

Mr. W. W. Gard being called upon for a few remarks, proved to be a regular Chauncey M. Depew, and kept his auditors in a pleasant mood relating

STOMACH UPSET?

Get At the Real Cause—Take
Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lax, don't care feeling, no ambition or energy, troubled with indigestion food, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

The Olive Tablet Company, Columbus, O.

many incidents and anecdotes. A number of others were called upon and responded after which a program of vocal and instrumental music followed. The affair was a complete success in every particular and the large crowd present enjoyed every minute of the too short an evening. A vote of thanks was given the hosts and they were informed that they could repeat the banquet if they so desired after every election.

VIENNA REPORTS

SERVIAN RETREAT.

London, Nov. 13.—A despatch to Reuters Telegram company from Vienna, via Amsterdam, says:

In an official telegram from the southern war theatre states that the attacks on block houses and strongly fortified positions, together with the pursuit of the enemy, continued on the whole front Wednesday. The line east of Nakucani and Novoselo, on the Save river, was reached by the Austrian troops.

"The Servians are in full retreat on Kotzietova and Valievo, where, according to reports from Austrian aviators, ammunition and provision cars block all the ways of communication.

"Four guns, fourteen munition cars and numerous prisoners were captured."

WOMAN FIREMAN'S RIGHT TO OFFICE BEFORE THE COURT

(Associated Press Telegram)

New York, Nov. 13.—The power of the board of education to discharge the only licensed woman fireman in the city and perhaps in the country is to be decided by Supreme Court Justice Davis as the result of a suit filed yesterday by Miss Antoinette Vonasek who for some months has been firing the boiler at Public School No. 31, the Bronx.

Miss Vonasek has been ordered dismissed by the janitor who hired her at \$60 a month, because the board of education fears that when she is stocking the boiler, her clothing may become ignited.

Miss Vonasek's unique case was presented yesterday by her attorney for a writ of mandamus forbidding the board of education to dismiss the woman fireman.

MEXICAN MINISTER

AT PARIS RESIGNS

(Associated Press Telegram)

Paris, Nov. 13.—Francisco Leon de La Barra, the Mexican minister to France who resigned his post when General Carranza assumed the provisional presidency of Mexico, has handed over the archives of the Mexican legation to Louis Quintanilla, who has been appointed to succeed him by the acting government of Mexico.

India's total population is 315,156,396. Ten years ago the figures were 294,361,036.

HAVE YOU NEURASTHENIA?

Neurasthenia is a condition of exhaustion of the nervous system. The causes are varied. Continuous work, mental or physical, without proper vacation periods, without proper attention to diet and exercise, also worry over the struggle for success, are the most common causes. Excesses of almost any kind may produce it. Some diseases, like the grip, will cause neurasthenia. So also will a severe shock, intense anxiety or grief.

The symptoms are over-sensitiveness, irritability, a disposition to worry over trifles, headache, possibly nausea.

The treatment is one of nutrition of the nerve cells, requiring a non-alcoholic tonic. As the nerves get their nourishment from the blood the treatment must be directed toward building up the blood. Dr. Williams' Pink Pills act directly on the blood and with proper regulation of the diet have proved of the greatest benefit in many cases of neurasthenia. A tendency to anemia, or bloodlessness, shown by most neurasthenic patients, is also corrected by these tonic pills. Your own druggist sells Dr. Williams' Pink Pills.

Two useful books "Diseases of the Nervous System" and "What to Eat and How to Eat" will be sent free by the Dr. Williams' Medicine Co., Schenectady, N. Y., if you mention this paper.

TROUSERS

TO THE NUMBER OF 40,000 PAIRS FOR FRENCH SOLDIERS CONTRACTED FOR.

Horses Also Being Bought in U. S. for French and British Cavalry.

(ASSOCIATED PRESS TELEGRAM)
Chicago, Nov. 13.—Buyers for the French government opened negotiations here today for the purchase of forty thousand pairs of red trousers of four different shades for the army. In addition, contracts are to be made for markers to designate the regiment and company for 300,000 French soldiers.

Representatives of the British army also are here to purchase six hundred motor trucks of from three to six ton capacity for immediate delivery.

5000 CAVALRY HORSES.
(ASSOCIATED PRESS TELEGRAM)
Baker, Ore., Nov. 13.—Under contract with the French government to furnish 5,000 cavalry horses, a stockman of Weiser, Idaho, opened headquarters here today.

Under the contract the entire quota must be shipped by November 27. An average of \$125 each was paid for three hundred horses bought today.

BRITISH IN THE MARKET.
(ASSOCIATED PRESS TELEGRAM)
Butte, Mont., Nov. 13.—French and British horse buyers are making contracts in Montana for the purchase of about eight thousand head of horses. It was learned today. One shipment of 3,000 head is to start within two weeks.

An Endowed Flagstaff.
What is thought to be the only endowed flagstaff in the world is that belonging to the Royal Asylum For the Deaf and Dumb at Margate, England. This staff was erected in the first year of the reign of King Edward VII. in commemoration of his accession to the throne. The cost was defrayed by the pupils and friends, and the collection taken was so large that it enabled the purchase of twenty flags.

Even when the staff and the flags had been paid for £40 remained in the treasury. This sum was invested for an endowment fund, and the interest is used every other year for painting and repairing the pole and tackle.

Some of the various flags bought are the royal standard, which is flown on the king's accession day, his birthday and his coronation day; the stars and stripes, run up on the president's birthday and election day; the French flag, used on the president's birthday; appropriate banners for St. David's, St. Patrick's and St. George's days; the union jack for the anniversaries of famous battles, and flags for the church's high festivals.—New York Tribune.

WHY SUFFER FROM RHEUMATISM?

You don't have to—if you use Hoff's German Liniment. When your joints and muscles ache, when every movement you make is a painful effort, get a bottle of Hoff's German Liniment and rub on the aching parts. This famous Liniment is stainless and greaseless, with refreshing odor. It has routed Rheumatic pains for millions. It will do it for you quickly and surely. Hoff's German Liniment is as pure and white as snow. It won't soil the most delicate clothes.

At the first touch of Rheumatism, lame back or aching muscles, rub on plenty of Hoff's German Liniment. Hoff's German Liniment has for 18 years been the unequalled remedy for Sore Throat, Cold in the Head, Cold on the Lungs, Neuralgia, Bruises, Sprains, Burns, Sore Feet, Corns, Bunions, etc. It is perfectly harmless. You can take it internally for a quick relief of colds, coughs, croup, etc. In thousands of homes it has saved many big doctor bills. It is fine for children, as thousands of mothers already know. There is nothing like Hoff's German Liniment in existence for stopping pain. It is a pure white emulsion of camphor cream with other pure, harmless, effective ingredients. It keeps colds out—the pores closed—which camphorated oil alone will not do.

All druggists sell Hoff's German Liniment—a quarter of a pint for a quarter; large family size, 50c. Results absolutely guaranteed or your druggist is authorized to return your money without argument. Beware of substitutes.

Granville

(Special to The Advocate)
Granville, Nov. 13.—Mr. William Black, who has been engaged in teaming and hauling here for the past thirty-four years, has sold his business to Mr. E. H. Hammond, who will open an office soon. Mr. Black's many patrons will miss him, for during all these years he has shown himself uniformly courteous and painstaking in the discharge of his duties pertaining to his business.

Mrs. Paus of Kansas City, Kan., who has been visiting her sister, Mrs. William Showman on North street, expects to start for home tomorrow.

Mr. Fred Smith is moving his family and household goods into the house on the corner of Pearl and Summit streets, just vacated by Mr. Louis Pine and family, who have gone to Newark to live.

Mrs. Sarah Prior of Waverly, Va., is visiting her daughter, Mrs. William Stark.

Mr. John McClain recently received a medal from the government at Washington, D. C., on which is inscribed "Good Conduct While on the Firing Line 1876-77." Mr. McClain was in the regular service in Montana against the hostile Sioux Indians. He was orderly sergeant of M. troop, and was a member of this company for three years and eleven months.

Mrs. Lucy E. Van Kirk has gone to Atlanta, Ga., to attend the National W. C. T. U. convention held in that city, Nov. 12-18.

Mr. and Mrs. T. M. Kier are visiting their daughter, Miss Viola, in Philadelphia.

Mrs. Joshua Stark delightfully entertained at dinner Thursday at her home on the Worthington road. Covers were laid for fifteen guests.

Mr. and Mrs. W. E. Dalby, who have been visiting Mr. Dalby's parents in Taylorsville, Ill., for the past fortnight, have returned to their home on Prospect Hill.

Dr. J. W. Rohrer left this morning for a few days' visit in Greenfield, O.

Karl Eschman, director of the Denison Conservatory of Music, left Friday morning for Dresden, his home town, where he will dedicate the new organ in the Presbyterian church. He will return Monday.

Mrs. Jay Robert Brown of Toledo is visiting at the home of her parents, Rev. and Mrs. T. G. Field in North Pearl street.

The varsity eleven left Friday morning for Miami University where they will play the hardest game of the season Saturday.

MAYORS DISCUSS PUBLIC UTILITIES AT CONFERENCE

(ASSOCIATED PRESS TELEGRAM)
Philadelphia, Nov. 13.—A conference of American mayors called by the chief executives of Philadelphia, New York, Chicago, Cleveland and Dayton to discuss problems in connection with the relations of public service corporations to municipalities began a two days' session here today. Representatives of more than 500 cities, including mayors from all parts of the United States and Canada and numerous experts on the subjects under discussion were in attendance at the opening session at which Mayor Blankenburg of this city, presided.

Papers to be read at this session include "Fundamental Planks in a Public Utility Program" by Delos E. Wilcox of New York; "The Regulation of Municipal Utilities" by Nathaniel T. Guernsey of New York; "Philadelphia's Transit Problems," A. Morrill Taylor, director of city transit, Philadelphia; "Municipal Lighting Rates," Ray Palmer, commissioner of gas and electricity, Chicago; "Interlocking Directorates," Louis D. Brandeis, Boston, Mass.

RUSSIAN ADVANCE DISCOUNTED BY BERLIN REPORTS

(ASSOCIATED PRESS TELEGRAM)
Berlin, Nov. 13.—(By wireless.)—The only news reaching Berlin of the Russian operations comes from Vienna whence it is reported that the Austrian operations in the northeast are developing without hindrance from the enemy.

The Russians have advanced through the region of central Galicia, voluntarily evacuated by the Austrians, and have crossed the lower Vistula, occupying Rzeszow and the Lisko district. The fortress of Przemyśl again is invested by the Russians but Russian forces in the Stry valley were forced to retreat with heavy losses by a surprise attack from an Austrian armored train and Austrian cavalry.

Lime Starvation Causes Tuberculosis

The Medical Record (New York) of December 15, 1909, contains an article on "The Treatment of Pulmonary Tuberculosis, Based on the Assumption That the Etiologic Cause of the Disease is Lime Starvation," by Dr. John F. Russell, who says: "The condition which is recognized as preceding the active development of tuberculosis in the adult may be considered as due to lime starvation. Young inorganic substances appear to be of special physiological importance, but if the salts are not in organic combination it is difficult to suppose that the cells can appropriate them for food."

Young's Food, a well-read use, confirm us in the belief that the success of Bekman's Alkaline in cases of pulmonary tuberculosis (consumption) and of all chronic and hereditary troubles, especially those due to lime starvation, is due to its combination with other valuable salts which are easily assimilated by the cells.

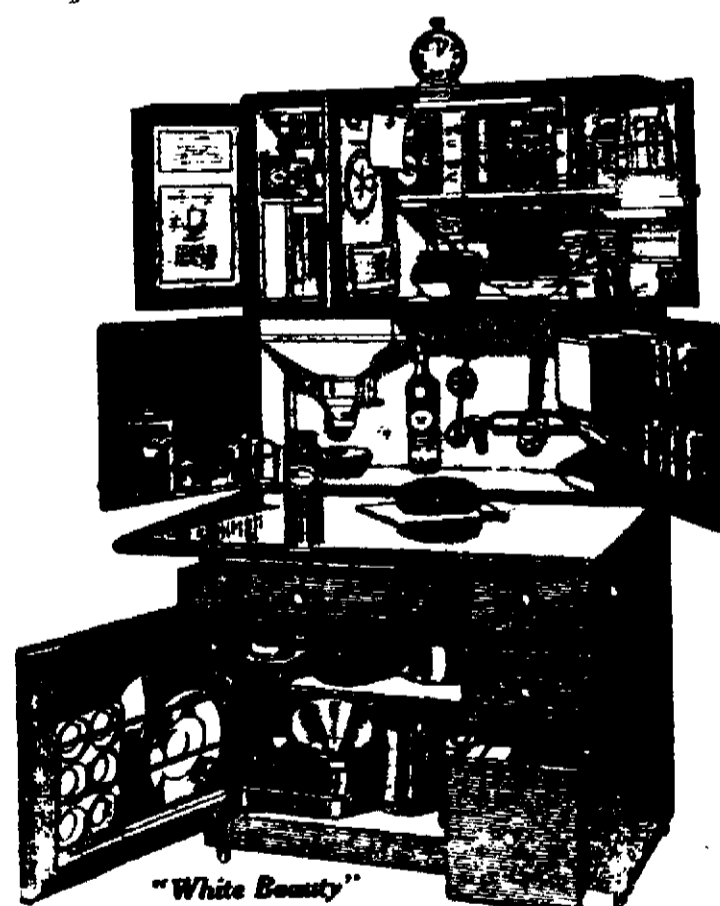

Therefore, it has had much to do with the results obtained in many cases of these afflictions, which appear to have yielded to Bekman's Alkaline.

As it contains no opiates, narcotics or any other drugs, it is safe to try. Your druggist will order it for you or you can send direct. Bekman Laboratory, Philadelphia.

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle. Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."

LADIES DARKEN YOUR GRAY HAIR

Look years younger! Use Grandmother's recipe of Sage Tea and Sulphur and nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant. Agents Hall's drug store.

Twenty-Five Licking Co. Boys Entered In Corn Contest For Free Trips to Washington

There are twenty-five entries in the boys' corn contest for 1914 from Licking county for the three trips to Washington, Philadelphia and New York. Last year nine free trips were offered and there were only fourteen contestants.

The three free trips this year are offered by the Home Building Association, The Newark Trust Company and the Licking County Agricultural Society. Financial institutions all over the state have been taking a great interest in these corn contests—and the majority of the trips are financed by them. They certainly are to be highly commended for their action. In addition to the free trips for the boys the Corn Exchange National bank of Philadelphia is offering \$100 in premiums for the best three ears of corn grown and selected by any boy in the corn growing contest. The award is to be made at the time of the visit of the corn boys to the Quaker City.

The announcement of the award for the three trips from Licking county will be made shortly.

Those entered are: Albert Keller, Hebron, R. D. 1, Union township; Russell Barrick, Croton, Beantown township; Thelma E. Overturf, Johnstown, R. D. 2, Liberty township; Franklin Reese, Granville R. D. 1, Union township; Harold E. Orr, Newark R. D. 6, Franklin township; Annie G. Davis, Granville R. D. 2, Granville township; Walter Thurston, Johnstown R. D. 6, Monroe township; T. A. Powell, Newark R. D. 3, Newark township; Russell F. White, Johnstown R. D. 2, Liberty township; Oscar Van Tassel, Newark R. D. 2, Newark township; Perry Keller, Hebron R. D. 1, Union township; Francis Longshore, Johnstown R. D. 2, Liberty township; Ray E. Crawford, Hanover R. D. 1, Hanover township; Roscoe Phillips, Black Run R. D. 1, Perry township; Howard E. Claggett, Hebron R. D. 2, Union township; Arthur B. Kinney, Union Station, Union township; Leo S. Kelley, Granville R. D. 2, Granville township; Denzell Lees, Hebron R. D. 2, Newark township; Forest Snyder, Millersport R. D. 1, Union township; Francis Aams, Centerville R. D. 1, Hartford township; Asa M. Young, Granville R. D. 3, McKean township; Charles M. Bibler, Granville R. D. 3, McKean township; Lawrence Rodebeck, Johnstown R. D. 6, Monroe township; Glenn Harris, Union Station, Union township, and Dan Z. Tharp.

Through the boys many of the parents and neighbors have become interested in the contest and many of them will take advantage of the offer made by those in charge of the Washington trip to visit the Nation's capital at a nominal cost.

The Buckeye Corn Special train will leave Newark Monday, Nov. 30, re-

turning Saturday, December 5, and is promoted by the State of Ohio Agricultural Commission in the interest of education and social advancement. There will be seven special trains composed of Pullman sleeping cars and a brass band will accompany the trains. The party is limited to two thousand and reservations close Monday, November 23.

Many good reports are coming in over the state from boys who have entered the corn contest. In Muskingum county Herbert T. Marshall, 14, of Pleasant Valley, and a student at the Lash high school, reports a yield of 122 bushels and 31 pounds from an acre he cultivated. It was produced at a total cost of \$15.80 for seed and labor or less than 13 cents per bushel. In addition \$10 worth of fertilizer was used. In raising his crop Mr. Marshall "worked" his acre of corn five times.

The chamber of commerce at Lima, is to hold a reception for Arnett Rose of Alger, champion corn boy, winner last year, who again won honors this year with a crop yield of 153 bushels and 24 pounds of shelled corn per acre. Rose will be presented with a gold medal.

Four brothers, members of the Boys' Corn club of Georgia, produced 824 bushels of corn on four acres of land this year. Luther Allred of Pickens county, one of the brothers, won first prize at the state fair for the greatest yield from one acre. He produced 227 bushels.

Clarence Allred raised 220 bushels, Elmer 210, and Arthur 167, according to the announcement of the judges.

Walker Lee Dunson of Alexander City, Ala., holds the national record with a yield of 232 bushels on one acre.

EVEN CURES ULCERS

Remarkable Results from Skin Remedy that Costs Almost Nothing.

No matter how bad a sore or ulcer afflicts you, it is believed that Hokara, the great skin healer, will cure it, but if it doesn't cure, the purchase price will be refunded.

Evans' Drug Store, the local agents for Hokara, who have sold hundreds of packages, say they have yet to find any form of wound or disease affecting the skin that Hokara does not heal, and its relief comes so quickly that those who try it are simply delighted with it.

Scalp eczema, blackheads, acne, barber's itch, and all skin troubles are quickly relieved by applying this simple skin healer and tissue builder. It contains no grease or acids, and is cleanly to use.

Evans' Drug Store is selling a large package of Hokara for 25c.

AUSTRIANS TREAT PRISONERS WITH CONSIDERATION

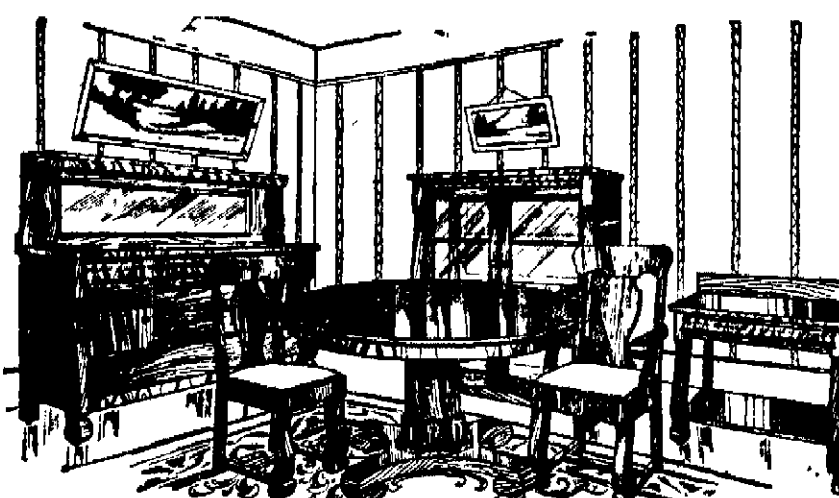

London, Nov. 12. A telegram from Vienna states that 731 officers and 79,314 men are prisoners of war in the Austrian concentration camps, says an Amsterdam dispatch to Reuters Telegram Company.

"The enemy's wounded are being treated like our own soldiers," the telegram goes on to say, "while the officers who are prisoners are interned in castles and in great private houses and the captured men in great barracks."

Local Firm Restores Antique Furniture; Business Growing

Starting a shop only 12 years ago with a few feet in size, Hare and Son of 625 North avenue, have found it necessary to enlarge their premises. The time until at present a building 10 by 50 feet with two floors has been established. The shop has a reputation for restoring antique furniture and of workmanship already made to both sides of the line. The restoration is a specialty with the firm. The work is done in a room at the rear of the shop. The original wood is restored and the finish applied. The work is done in a room at the rear of the shop. being restored. A store room where the new jobs are received is filled with furniture left with them for refashioning. Made-to-order furniture is another feature of their work. A sample of this line, being on display in the Arcade window of the Newark Trust Company. This set of furniture, all hand made, after an antique design, is a beautiful example of the furniture maker's craft. It is a natural walnut finish and is very attractive. A beautiful secretary made from an old square piano is another example of their work. This is for shipment to an eastern customer. The piano was of rosewood and the alterations have made it into a handsome piece of furniture. The work of the firm has, so far, been its only advertisement, and it speaks loudly for the artists. Most any form of cabinet making can be done in the shop, as well as repair work. Estimates are always cheerfully given.

2 ACCIDENTS AT CROSSING KILLS FOUR

(ASSOCIATED PRESS TELEGRAM)
Atwater, O., Nov. 13.—Three men were killed and one injured here last night and early today in two accidents at the Pennsylvania crossing.
The dead:
Robert Wasson, 35, Atwater, farmer.
John A. Joiner, 33, Homeworth, O., electrician.
Edward Cobb, 50, Alliance, farmer.
The injured: R. R. Roeder, 35, Atwater, grocer.
Wasson was driving home from Alliance late last night when a fast train struck his wagon at the crossing. He was instantly killed. His son, Roy, and another boy, riding in another car just behind him, witnessed the accident.
Cobb, Joiner and Roeder, with two other men, were returning home from a moon hunt early today when a fast freight train struck their machine at the crossing. The three named were in the rear seat of the automobile. Two other men, in the front seat, escaped injury.

REMARKABLE RECORD. Flesh-forming Food that Succeeds Nearly Every Time.

A man or woman might as well starve outright as to take food into the stomach and not have it assimilated, yet in Newark as well as in every other town and city, there are many people who are thin, pale and seem underfed, simply because the food they eat is not assimilated, and fails to make good blood and firm flesh.
Samose, the wonderful flesh-forming food taken before or after meals mingles with the food, so that it is assimilated by the system and makes rich blood and pleasing plumpness.
Anyone who is thin, weak, scrawny and emaciated can put 50c on deposit with W. A. Erman & Son, and take home a box of Samose. If the treatment does not give a noticeable increase in good, firm flesh and restore strength and health they will return your money without any questions.

PASTEURIZE

MILK AT YOUR OWN HOME.
WHICH IS A VERY SIMPLE
PROCESS.

This Is Advised by State Health
Board Wherever Cattle Dis-
ease Prevails.

(ASSOCIATED PRESS TELEGRAM)
Columbus, Nov. 13.—Milk may be pasteurized by a simple process in any home, according to a statement issued today by Dr. Eugene F. McCampbell of the state board of health.
Danger of acquisition of foot and mouth disease by humans, particularly infants, is eliminated by this process, which Dr. McCampbell urged in all communities where suspected cases of foot and mouth disease exist.
The pasteurization may be accomplished by adherence to the following instructions, says Dr. McCampbell:
"Place an ordinary saucer, face up, in a tin pail. A pail approximately eight inches in diameter and six to eight inches in height is to be preferred. Perforate the pasteboard cap of the milk bottle with three or four holes made by a fork which has been boiled. Place the bottle of milk with the can perforated on a saucer in the tin pail and add enough warm water to the pail to bring the top level half way up the bottle of milk. Place the pail with the milk bottle within on the stove and watch it carefully until the water surrounding the bottle comes to a boil. At this point take out the bottle of milk and cool it as rapidly as possible, being careful, of course, not to break the bottle by too rapid cooling. Seal the perforations made in the cap of the bottle with paraffin and place in the ice box. Milk so treated is efficiently pasteurized."

FEARING

THE GREEKS, KAISER WILHELM OFFERS HIS MARBLE PALACE AT CORFU FOR SALE.

Swiss Syndicate Given an Option on the Place Which Has Cost \$5,000,000.

(ASSOCIATED PRESS TELEGRAM)
Geneva, via Paris, Nov. 12.—11:50 p. m.—Emperor William is offering his marble palace, the villa of Achilleon, in Corfu, for sale. It was built in 1890-91 for the Empress Elizabeth of Austria at a cost of \$5,000,000, and has since been improved. A syndicate of Germans and Swiss hotel men wished to buy Achilleon a few years ago but they were outbid by the emperor.
The emperor's decision to sell the place, it is stated is the result of the uncertain attitude of Greece towards Germany and Austria. It is said he fears confiscation of the palace if Greece joins the allies. A Swiss syndicate has been given an option on the place at a low price.
The villa of Achilleon, which is in the Italian Renaissance style, was purchased in 1907 by the emperor. Gardens are open to visitors. At the back of the villa are a peristyle and three terraces with a large number of statues and among them in the outermost terrace is a "dying Achilles" by Herter.
The large park, descending toward the sea in terraces, contains a small temple with a seated marble statue of Heine, the poet, by the Danish sculptor Hasselriis. The villa was erected by the Italian architect Raffaele Carito.

Theatres

Nancy in "Sham" Was Really Good.
It was a typical Boyer day at the Auditorium yesterday with the presentation of the laughing farce comedy, "A Good Fellow" to a crowded house at the matinee and with Henrietta Crossman's comedy "Sham" at night to another house that demonstrated Nancy's drawing ability.
Nancy Boyer fitted most naturally into the character of Katherine Van Ripper, a butterfly of fashion who attempts to keep up on an income of almost nothing at all with all the petty sham and fraud of New York society makes a play that has many strong points that makes it set out in a niche all by itself. Miss Boyer wore some most charming gowns that looked the "Last Thing" in the modiste's art.
Tonight will witness the presentation of "Her Husband's Wife," a three act comedy that is so funny that it "will make you forget the war." As the story goes it has to do with the plan of Irene Randolph, played by Miss Boyer and her Uncle John to have her husband marry Emily Ladew very plain and dowdy person, at her death Miss Ladew enters in to the affair with some reluctance, knowing that she was chosen on account of her plainness but the scheme works the plan, or way for Miss Ladew transfers herself into a most attractive person and the husband is attracted toward her and around this the action revolves quick and fast and makes one of the most laughable comedies of recent years. This play also gives Miss Boyer the opportunity to wear some more pretty dresses, that will appeal very strongly to the ladies, for they are the latest Paris models imported just before the outbreak of the war. "Her Husband's Wife" pleased a large audience Tuesday afternoon and should be a good receipt for the company.
"The Third Degree" will be repeated Saturday matinee.

JACKSONTOWN.
Last Friday afternoon about 1 o'clock, one of the engines working on the National Pike set fire to Mrs. David Evelyn's house on East Main street. The house was destroyed. Most all the household furniture was saved.
Misses Reba Jure, Ethel Jure and Messrs. Carl Jure, Fred Jure, David Jure and Sam Jure, all friends and relatives of the Jures, were at the house when the Jackson-town Grange will give a banquet for the Grangers and a few who will be invited.
Mr. and Mrs. George S. Jure, catered for Sunday dinner many of their friends.
Mr. Frank Harris is visiting her mother in Columbus.
The Jackson Club met at the home of Miss J. Rogers Wednesday.
On Friday night, Thanksgiving, the Grangers will give a fine program.
Mr. and Mrs. M. Gill spent Saturday and Sunday at the home in Urbana.

MY CATARRH BALM OPENS UP NOSE AND HEAD---COLDS GO

Breathe Freely! Clears Stuffed-up, Inflamed Nose and Head and Stops Catarrhal Discharge. Cures Dull Headache.

Try "Ely's Cream Balm."
Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.
End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.
Don't lay awake tonight struggling for breath with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dripping into the throat, and raw dryness is distressing but truly needless.
Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

IF BILIOUS, SICK OR CONSTIPATED TAKE CASCARETS

Get a 10-cent box now. You're bilious! You have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleansing up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean, stomach sweet, and your head clear for months. Children love to take Cascarets because they taste good and never gripe or sicken.

ONE-SEVENTH OF LICKING VOTERS IN K. OF P. LODGE

Big Convention Held at Johnstown Thursday Night Attended By Nearly 500 Members.

The annual county meeting of the Knights of Pythias of the county held at Johnstown on Thursday evening was an event which will linger long in the memory of the 450 members of this great order who were present. The main street of Johnstown was literally jammed with automobiles from all over the county, and the myriads of happy faces in the hall of White Cross Lodge No. 308, were evidence of the fact that all present were glad to be there. About sixty Knights from Newark, along with delegations from Alexandria, Croton, Granville, Homer, Pataskala and other places helped swell the crowd.

The county meeting was called to order shortly after 8 o'clock by Dr. J. W. Rehner of Granville, county deputy, who called upon Congressman W. A. Ashbrook to make the address of welcome, which he did in his own inimitable manner.

Before calling for reports from the various lodge deputies present, Dr. Rehner made the interesting statement that Licking county with its 2030 Knights ranked first in membership among the 12 largest counties of the state in proportion to population. With 14,000 voters in this county, one-seventh are members of the order. No other county of this size or larger can show as good a percentage, and few, if any, of the smaller counties can do better.

The reports from the various lodges of the county showed a satisfactory condition and a consistent growth. Roland Lodge, No. 305, of Newark, with about 475 members, is the largest in the county, while Newark lodge, No. 13, and White Cross lodge, No. 308, are not far behind. Grand Chancellor E. W. Ellis of Dayton was an honored guest and made an address which will live in the minds of many long after he has stepped down from his exalted position next June. He brought out many points which were new in gatherings of this kind, and his explanation of what he considered a true Pythian Knight touched a responsive chord in many a follower of Damon and Pythias. After listening to this talented speaker one is convinced that there is still plenty of room in this old world to cast the flowers of sympathy and uproot the thorns of selfishness.

Following Brother Ellis, Rev. Karl Alexander of Alexandria, Rev. Mr. Harbaugh of Croton, Rev. Mr. Hawke of Granville and Dr. Burleigh of Johnstown were called upon and made appropriate remarks.

The orchestra of White Cross lodge furnished many pleasing selections throughout the evening and added to the joyousness of the occasion.

A squad of sixteen members of Licking county, No. 121, Uniform Rank, of Newark, under the command of Captain Wollinsky, then put on a fancy drill, executing a number of difficult maneuvers with precision and dispatch. The forming of the letters "P. C. B. K. P." made a decided hit. They were loudly applauded.

Following the Uniform Rank a company of ladies from the Pythian Sisters of Johnstown also put on a drill. The twenty members, all dressed in white, with red sashes, made a pretty picture, and their fairly outdid themselves, giving an exhibition which was highly enjoyable. Many present thought they were better drillers than the men. They were also highly appreciated judges from the hand-clapping at the close.

All present were cordially invited to attend the next meeting of the ladies of the corner stone of the Pythian castle hall in Newark on Sunday afternoon, Nov. 15, Frank Place of Newark giving the invitation. Many expressed their intention of being present.

The final of this great meeting was the chicken supper, served on the Pythian sisters in the banquet hall after the program was over. If any of the visitors who away not present stated that he had been present, we are not yet hearing of his whereabouts.

Truth and Love. When I remember how earnestly men have striven to think their way into the secrets of the universe and how certainly they have failed I see clearly that only he who lives into truth finds it. That love alone is immortal. Edson Wright, Maine.

Norway and Trotting Horses.

From tales of travel and other sources of information it appears that Norway was one of the first countries to develop speed in the trotting horse, which centuries ago seems to have been common to the nations of northern Europe. Sivard Peterson says that as early as the beginning of the eighteenth century there were information of trotting races in Christiania. The principal name in the history of the sport is that of Jacob Meyer, chief of the royal mounted militia, who was born in 1781. He owned the noted horse Slejner-Varg that on March 15, 1829, trotted an English mile in 2:37 and repeated in the same time. This was faster than any horse had then trotted in America, so far as is known. In Sweden and in Finland the sport of trotting horses dates back, it is said, to prehistoric times. With long winters and nothing else to do the people raced their horses to sleighs on the ice Sunday morning was the great occasion, men and horses coming from miles around to take part in or witness the sport.—New York Herald.

Her Early Life in Germany.

In her book entitled "Scenes and Memories" Walburga Lady Paget has this to say of her early life in Germany: "We ran about without shoes or stockings in the grass; in summer we were plunged into the river, a wide and rushing mountain stream; in winter we had to break the ice in our tubs and our nurses dashed basins of icy water over our backs. I can still feel the thin bits of ice mixed with the water slithering down over me. A fire in our bedrooms was never thought of, and the schoolroom was never more than 9 degrees Reaumur (52 F.). I was fourteen or fifteen before I knew what it was to have something to drink at breakfast, as I did not like milk bread, with a little butter, was all I ever had. An egg for a child, if it was not ill, was considered quite absurd between meals we were given abundant food of fruit."

Romance of a Picture.

Half a century ago a medical student lodging in London so ingratiated himself in the eyes of his landlady that on his departure for Hobart to practice she asked him to accept a souvenir of his London home, and he took a picture which had been in his sitting room. This picture remained in his house for upward of forty years without attracting any particular notice, but then its hour struck, for a visitor detected merit in it and advised the owner to forward a description of it to London. He did so, and the picture, which turned out to be a Romney, fetched 3,500 guineas. The best of the story is that the Tasmanian editor who printed an account of the matter gave the price as 350 guineas, saying that he did so because he did not believe that any picture could be worth the larger sum.—London Sphere.

Crime and Penalty.

When Mrs. Wiles recently met out punishment to Master George Wiles with a carpet bender that young gentleman gave vent to such weeping and wailing that the lady next door was constrained to perk her head over the back yard fence and inquire what was the matter.

"Got about a couple o' 'undred feet o' gas inside him, that's wot the matter," Mrs. Wiles replied.

"Couple o' 'undred feet o' gas?" echoed the lady somewhat incredulously. "Wot on earth's 'e been doin', takin' the gas pipe for a feedin' bottle?"

"No, 'e ain't," snapped Mrs. Wiles. "'E's been swallowin' the shillin' wot I laid by for the gas meter."—London Tit-Bits.

Alpine Egg Dance.

A curious eastern custom has been observed for many centuries in the western Alps. One hundred eggs are distributed over a level space covered with sand and the young men and women perform a dance around them. If a couple are fortunate enough to finish the dance without breaking an egg it is taken as a token of the compatibility of their temperaments and they are betrothed.

HEAVY PENALTIES

(Continued from Page 1.) has issued an order prohibiting the sale and delivery of milk, butter and cheese of dairy cows, when such cows are under quarantine.

The penalty as found in 1129 Ohio statutes regarding the quarantine laws is as follows:

"Whoever, being a person, firm or corporation, having in his possession or under his control, an animal which he knows or has reason to believe is afflicted with a dangerously contagious or infectious disease, fails or neglects to give notice of such fact as provided by law, or brings into a state, or sells or disposes of an animal which he knows to be so afflicted or to have been exposed to a dangerously contagious or infectious disease, within three months after being so exposed, or leaves an animal from quarantine if placed in quarantine by the municipal health officer, or moves an animal from a district declared by the commission to be infected with a dangerous contagious or infectious disease, or brings into the state from any district so declared by the commission to be infected with such diseases any animal of the kind so declared to be infected, except under such conditions as the commission prescribes, shall be fined not more than \$500."

In all probability all the infected cattle in the county as well as those exposed, will be killed. The work will be done by men employed by the state and the owners will be compensated. In other counties they are burning the cattle destroyed and in some cases they are burning the carcasses.

The people who are now in the city will appoint special agents to guard every place they deem necessary and they will continue their investigations of all stock in the county. It has been exposed by the board brought into this city wool before.

The Pennsylvania company is run-

ning a special train to disinfect stock cars and stock yards along their right of way. Hundreds of cars will be disinfected and a number of days will be required to complete the task.

FIND BOMB IN TOMBS COURTROOM

Directly Under Office Occupied by District Attorney Whitman

POLICEMAN SNATCHED BURNING FUSE FROM MISSILE

AND CARRIED IT OUT

Spectators Thrown Into An Uproar—Enough Explosive In Bomb to Have Wrecked Entire Building—Magistrate Campbell Had Received Threatening I. W. W. Letters.

(ASSOCIATED PRESS TELEGRAM)
New York, Nov. 14.—A bomb somewhat similar in construction to the one that wrecked the entrance to the Bronx county courthouse last Wednesday night, was found today in the Tombs courtroom just under the district attorney's office, occupied by Governor-elect Whitman. The room was crowded.

The bomb contained gunpowder, slugs and bullets. Its fuse was partly burned.

George L. O'Connor, a policeman, saw smoke from the burning fuse of the bomb, ran to the spot, picked up the missile, tore off the fuse and carried the bomb from the courtroom. Four men were sitting on the bench in the rear of the courtroom where the bomb was found.

The bomb contained explosives enough, it was estimated, to have wrecked the building.

As O'Connor stripped the sputtering fuse from the bomb the courtroom was thrown into an uproar. Approximately fifty persons were in the room awaiting the arrival of Magistrate Campbell to open court. It is believed that his arrival was the signal to fire the fuse.

Examination showed that the bomb was made of a five-pound tin can and that it was filled with gun cotton, slugs and bullets. It was wrapped up in a Jewish daily newspaper tightly bound with wrapping cord.

Magistrate Campbell said that he had no idea who would seek to take his life, unless it were the writer or writers of threatening letters he had received during the recent trial of Industrial Workers of the World leaders at which he had presided.

The police believed that the bomb was left in the courtroom by the same band of anarchists that fired the bomb Wednesday night at the Bronx county courthouse and last month exploded bombs in St. Patrick's cathedral and at the church of St. Francis Xavier. The police recalled that Frank Tannenbaum and his Industrial Workers of the World entered St. Alphonsus church during their demonstration last year as a result of which Tannenbaum was sent to jail. The discovery of the wreckage at the Bronx county courthouse of pamphlets printed in Spanish, extolling the "Chicago martyrs," led to the belief that the bomb was set off in revenge of the execution of the Haymarket anarchists.

American Army Evacuates Vera Cruz November 23rd; Ships to Remain on Coast

(ASSOCIATED PRESS TELEGRAM)
Washington, Nov. 14.—American rule in Vera Cruz, which was established April 21, after sharp fighting and the loss of nineteen machines and hundreds of men, will be terminated on November 23. Secretary Garrison today worked out plans for withdrawal of the troops after the president and Secretary of State Bryan determined on the date for the evacuation. Mr. Bryan announced that all the Mexican guarantees had given assurances and guarantees requested for the Vera Cruz citizens who worked for the American government and that him and others for whose personal safety the United States had made itself responsible had left the city.

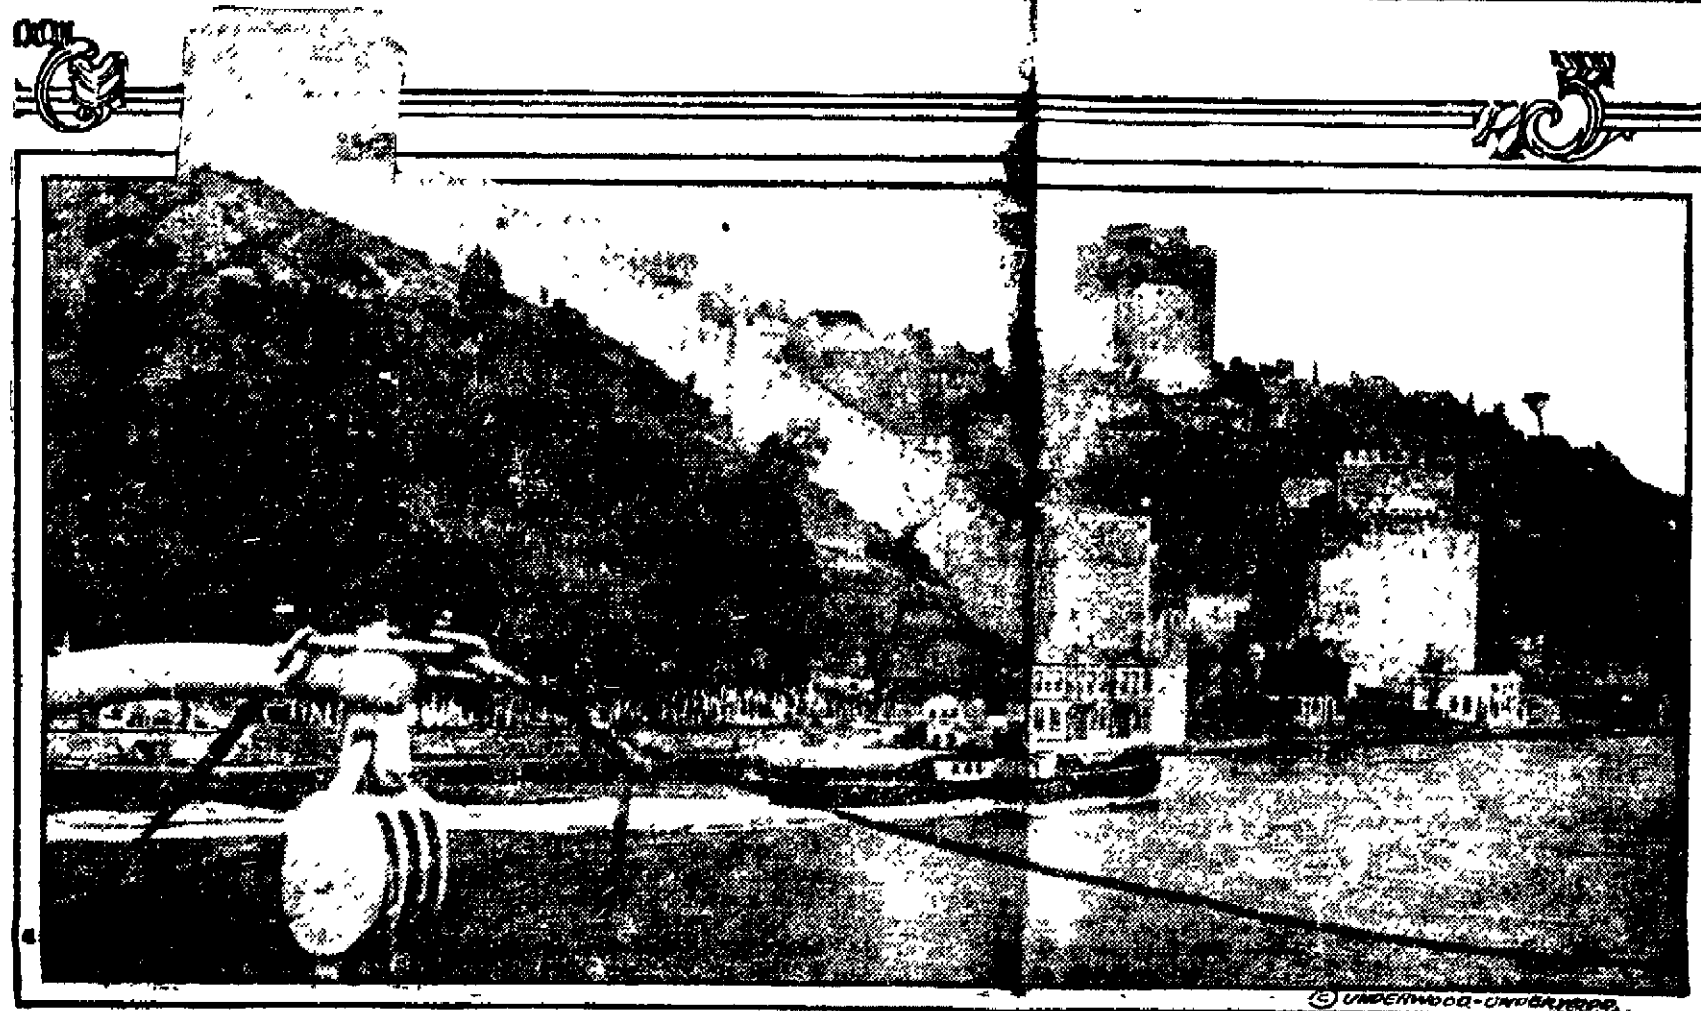

The announcement apparently comes as a surprise in some official quarters as it generally had been understood that the evacuation would not be ordered until it was determined which of the competing Mexicans could control Vera Cruz and assure execution of the guarantees, to whom the port would

GERMANY REPORTS RAIN IS IMPEDING THEIR ATTACKS

(ASSOCIATED PRESS TELEGRAM)
Berlin, (by wireless to London), Nov. 14.—Military headquarters today gave out an official announcement as follows:
"The fighting in western Flanders continues. Our attacks during the past few days have been impeded by the rain and stormy weather and are therefore proceeding slowly. South of Ypres we have taken 700 prisoners.
"The British attacks to the west of Lille have been repulsed.
"At Berry-Au-Bac we compelled the French to evacuate a commanding position."

Entire State of Ohio Under Quarantine; Hunting Season For 1914 Is Abolished; Serious Results to Industries Are Feared

(ASSOCIATED PRESS TELEGRAM)
Columbus, Nov. 14.—Absolute quarantine to prevent the spread of foot and mouth disease was imposed on every county in the state today by order of the agricultural commission.

The 1914 hunting season, which was to have opened Monday, was ordered abolished.

This action was taken on urgent advice of Dr. Marcon Lines, federal veterinarian in charge of the government campaign against foot and mouth disease in Ohio, and of Governor Cox. Farmers' organizations in all parts of the state also had asked that hunting be abolished this year.

Live stock now may not be moved across the boundaries of Ohio because of the federal quarantine imposed. Movement of stock within any county, from farm to farm, or from stock yards is prohibited.

The entire legal machinery of the state will be set in motion to prevent

violation of the stringent quarantine orders. Attorney General Hogan telegraphed every prosecuting attorney today to neglect temporarily ordinary business to enforce the quarantine, if this action is necessary.

Since the absolute state-wide quarantine applies to use of packing straw or straw not harvested before Aug. 1, it is probable that much mercantile shipping will be prevented.

State officials declared it is not improbable that meat prices will jump, since cattle may not even be sent to slaughter house yards without special permit of veterinary inspectors. It was announced these permits would be given sparingly.

How long the quarantine will be imposed is not known.

President A. P. Sandles of the agricultural commission declared it may be on for several months. New cases of foot and mouth disease were discovered today in many communities, heretofore thought free of the disease.

Hunting already had been forbidden in the 23 counties under complete quarantine, but no restriction had been placed on the sport in the other 65 counties. Hunters' license fees of \$1 will not be refunded, immediately, but it was said to be probable that state authorities would take steps to make this refund later.

"Thousands of men who had counted on going on hunting tours for the next few weeks between November 16 and December 4 will be sorely disappointed," said State Fish and Game Warden John C. Sprague today. "Vacations which have been arranged for many months will be discontinued, and will be made temporarily useless and rabbits will be saved. Sportsmen will have to take the situation philosophically—for I think they understand the future prospects of the live stock industry of the state is at stake."

George Cox, 1, explained the agricultural commission's action from Dayton, saying the commission that the state had placed upon the people of Ohio was a severe one. The commission will not permit any live stock to be moved from one county to another without a permit from the state. The commission will also prohibit the sale of live stock in any county.

The agricultural commission also announced that the step was necessary to complete

eradication of foot and mouth disease.

The governor and members of the agricultural commission are being bombarded with appeals from farmers' organizations throughout the state asking that the hunting season be declared closed through quarantine.

The suddenness with which the order was issued shortly after 10 o'clock this morning came as a surprise to those who have been in touch with the situation.

From now on it will be impossible to ship cattle from one county to another. It has not been determined whether the orders prohibiting the movements of cattle will be extended to include other animals. Its effect on the hunting season also has not been determined.

The state will lead in the slaughter (Continued on Page 7, Col. 4.)

British Dreadnaught A Helpless Wreck, Lies At Bottom of the Ocean

(ASSOCIATED PRESS TELEGRAM)
Nov. 14.—Rumors of a British dreadnaught which was sunk by a mine just before a clock on the morning of October 27. With the possible exception of one or two men the whole crew of 800 officers and men was rescued by small boats from the Olympic. The rescue in a rough sea through brilliant and daring seamanship on the part of the White Star crew. The battleship's cry for assistance was caught by the wireless operator of the Olympic which was only about ten miles distant. The crew rushed forward at full speed while her crew made ready to receive her.

Volunteers were called upon to man the lifeboats, and the crippled battleship was reached a few minutes after a night and before dawn. The sun of her men had been transferred.

By that time the battleship had a comparatively small crew where it lay below the water line. She had been damaged by a mine which had exploded under her bow.

After that, off at the officer and crew could be seen. She was towed to the coast of Ireland by the British battleship, the HMS. The ship was then towed to the coast of Ireland by the British battleship, the HMS. The ship was then towed to the coast of Ireland by the British battleship, the HMS.

With the possible exception of one or two men the whole crew of 800 officers and men was rescued by small boats from the Olympic. The rescue in a rough sea through brilliant and daring seamanship on the part of the White Star crew. The battleship's cry for assistance was caught by the wireless operator of the Olympic which was only about ten miles distant. The crew rushed forward at full speed while her crew made ready to receive her.

Volunteers were called upon to man the lifeboats, and the crippled battleship was reached a few minutes after a night and before dawn. The sun of her men had been transferred.

By that time the battleship had a comparatively small crew where it lay below the water line. She had been damaged by a mine which had exploded under her bow.

Tremendous Action Preceding Recent German Attacks On Ypres—For Three Hours the British Were Under Heavy Artillery Fire and This Was Succeeded by Onslaught of Prussians

ALLIES' OFFENSE RESUMED AT SOME IMPORTANT POINTS

German Experts Say the Capture of French Prisoners Indicates That the Belgians Have Been Cut to Pieces—Contradictory Reports Are Being Issued Regarding the Situation On the Turko-Russian Battle Front—Dragging of Channel Has Relieved the Submarine Menace Off Dover.

(ASSOCIATED PRESS TELEGRAM)
London, Nov. 14.—Both official and unofficial reports concerning the situation in Flanders agree that the force of the German assaults on the allies' lines, disputing the way to Dunkirk and Calais, has lessened, and the feeling is growing in England that the coveted base for an invasion of England never will be gained by the Germans.

A Paris official statement declares that from the sea to the river Lys, the German action has been less keen; that the allies have assumed the offensive along some parts of the front, are making progress south of Bixschoten, and have retaken a hamlet east of Ypres. Artillery duels continue along the rest of the line.

A British official report gives a vivid idea of the tremendous action which preceded the recent attacks on Ypres by the Germans. From dawn for three hours the Britons were under a heavy artillery fire which died away to be succeeded by an infantry onslaught by the Prussian guard, who were hurled back after penetrating the British lines at two points.

Dixmude has been reported as reoccupied by the allies, but this lacks confirmation. As the allied armies, however, have resumed the offensive at certain points there is reason to believe that this devoted town may again be the center of savage fighting.

On the eastern battle ground the Russians continue to advance. Vienna admits officially that they occupied Tarnow, Jaslo and Krasno, in Galicia. Residents are fleeing from east Silesia. In this they may be influenced by the belief that the Russians will not permit any German civilians to remain in the vicinity of their armies. The occupation of Johannsburg in east Prussia is regarded here as being of great strategic value to the Russians. If as it presumed the invaders came from the south for this movement they must have overcome extraordinary obstacles. The Germans are reported as having taken the guns from Cracow to Oppeln, in Silesia, 50 miles southeast of Breslau, and to have left the defense of the Cracow fortress entirely to the Austrian garrison.

In the opinion of British observers the city of Danzig on the coast of west Prussia, looms large as a Russian objective, and dispatches reaching here from Petrograd convey the belief of the Russian authorities that even the resumption of the German offensive against Russian Poland, will not cause a diversion.

The usual absolutely contradictory reports come from the scene of the Russo-Turkish battle front. The Russians report steady progress over the old battle grounds of 1912, while the Turks claim that the Russian ar-

mies have been pushed back across the border with heavy losses.

From the headquarters of the Teutonic armies come conservative statements of the activities of their armies. Vienna admits certain Russian successes which incidentally mean that the Slav power is again in possession of the great oil fields of Galicia, but another report from Austrian headquarters balances this by the claim of continued success against the Balkan enemy in the campaign to force the Servians behind their own borders.

Berlin reports progress on the western front accomplished by the repulse of every attempted advance by the allies. German military experts commenting on the fact that the prisoners taken at Neuport were French, claim this is proof that the Belgians have been so cut to pieces that it has become necessary for the French to take their places. They believe also that the taking of prisoners on the Ypres front indicates that the energy of the allies is flagging. One of these military writers does not conceal the anxiety caused by the Russian advance, but sets down his belief that the German frontier has not yet been crossed.

The only naval news of importance is the announcement that the submarine menace off Dover has been relieved by the dragging of chains along the bottom of the channel. This procedure is believed to have destroyed certain German submarines which for weeks have been successful in eluding the British guard ships.

CONGRATULATES JURY FOR CONVICTION OF WOMAN FOR MURDER.

(Associated Press Telegram)
Chicago, Nov. 14.—"With-out referring to the merits of this case it is refreshing to find twelve men who are willing to believe that a woman may be guilty of killing a man, and if so should be punished for it," said States Attorney Pasqualina Forte and her daughter Anna were found guilty of manslaughter. Pasqualina Forte, a son, was convicted of murder.

The three were tried for the murder of Antonia Morasco, a former suitor of the daughter, who was slain with a hatchet in front of the Forte home a year ago.

Manslaughter is punishable in Illinois by imprisonment for one year to life.

Tons of Christmas Gifts On Board Santa Claus Ship, Sailing For Europe Today

(ASSOCIATED PRESS TELEGRAM)
New York, Nov. 14.—With more than 1,200 tons of Christmas gifts for the people of America, a Santa Claus ship, the naval collector Jasco sailed today for Europe. A message of God speed from President Wilson was received by Lieutenant Commander C. H. Courtney, U. S. N., shortly before sailing. The Santa Claus ship, the Jasco, is a 1,200-ton ship, built at the Brooklyn Navy Yard, and is the largest of the Santa Claus ships.

The gifts that the Santa Claus ship carried were gathered from every state of the union. They include almost everything from toys and dolls to clothing and food. So heavy was the rain of Christmas presents for the children of Europe that a force of 90 soldiers and 60 sailors from the navy yard was required to receive, and classify the gifts as they arrived and re-pack them so that an equal distribution might be made in the several countries for which they were intended.

A summary of the cargo made by Commander Courtney shortly before sailing showed the following items: Fourteen carloads of children's clothing, five carloads of women's clothing, one carload of men's clothing, five carloads of toys, and

Some are now referring to the Colonel as Nick Longworth's father-in-law. Well the Colonel has no reason to be ashamed of Nick.

The Republicans seem anxious to return to the old method of making tariffs, in which every manufacturer was given the amount of protection he thought he ought to have.

Senator James of Kentucky, suggests Penrose and Cannon as the Republican leaders for 1916. It would be hard to pick any pair who could more gracefully stand upon a standpat platform.

As the Progressive party stands for change, and the Republican party against change, only people of a very visionary point of view are expecting any union between such an oil and water combination.

Our Republican friends made much of the low exports and high imports prevailing during the earlier part of the year, when much the same conditions have been found in Canada under wholly different tariff conditions.

While the Republican party dodged the question of the development of Alaska, the Democrats took hold promptly and passed an act providing for the opening up of the territory without mortgaging it to the coal combines.

President Wilson could have gotten by easier in the Mexican matter, had he been content with a procrastinating policy. The existing complications are simply the result of his sincere and determined effort to remove a dangerous source of irritation. This kind of frank and straightforward policy involves many difficulties, but it works out best in the long run.

Business has been slow all over the world for a year or two. Crops are good this year, but the country has felt the effect of the corn failure last year. Now the war has upset everything. The Split Ticket.
California gave its Progressive candidate for Governor twice the votes it gave his Republican rival and four times those it gave the Democrat. But for senator it gave the Democrat a crushing plurality, the Republican second place and the Progressive third. The "Native Sons" and their fellow citizens seem to have got the split ticket down to a science.—Pittsburg Dispatch.

Mother of Women's Clubs.
News of the death yesterday of Mrs. Caroline Severance, aged 94, at her home in Los Angeles, stated that she was the "Mother of Women's Clubs." While her claim to have founded the New England Women's Club in Boston in 1858 coincides with the founding of Sorosis by Mrs. J. C. Croly (Jenny June) in the same year at New York, the authorities give the credit to Mrs. Croly rather than to Mrs. Severance. Julia Ward Howe was a member of Mrs. Severance's organization.—Pittsburg Dispatch.

Democrats 233, Republicans 193.
There is a good deal of political fog on the editorial page of a local Republican organ, but the facts often get into the news columns clearly enough. Yesterday it printed a Washington dispatch saying that in the next House of Representatives there would be 233 Democrats and 193 Republicans; the scattering only number nine. Here is an admission of a Democratic plurality of 40, or majority over all of 31. And this is the result of what the Republicans profess to hail as a great victory and a harbinger of success in 1916. Well, the late Colonel Mulberry Sellers could pretend he was warm with a lighted candle in his empty stove, shining through the red mica of the door.—Philadelphia Record.

The Last of the Emden.
No matter what one's sympathies as between the belligerents may be it is impossible to withhold admiration for the performances of the German cruiser Emden on the Pacific. She has met the fate her commander, Karl von Muller, knew awaited her, sooner or later, but meantime she swept the seas of over a score of ships belonging to the allies, among them two war craft. There has been nothing more picturesque on the oceans during this conflict than the career and achievements of the Emden, which for weeks has defied 70 vessels of the enemy. Final honors, came to the Sydney of Australia's fleet, but an imperishable fame in sea annals is the Emden's nevertheless.—Pittsburg Gazette Times.

The Knockers.
The absurd story is being widely repeated in this town that there are 25,000 men in Youngstown out of work. As there are not more than that many men in the city of adult years living in the town the dimensions of falsehood are apparent. Why knock your own town? The Democratic party is safely in power at Washington for two years to come—what's to be gained by knocking?—Youngstown Vindicator.

Boosting Schools.
Agricultural courses have shown that the best way to increase the yield of a farm is to breed intelligent farmers. Common sense is enough to tell any man that the best way to cut down farm expenses is to increase school expenses. Autos or schools? Both, but schools first.—Canton News.

HARD LINES.

What are we paying taxes for? They say if we got in a war, we'd be a loser; though loudly we our trumpets tout, we have no cannon that will shoot, and no torpedoes that will scud and sink a cruiser. In congress now the statesmen rise, disgust and fury in their eyes, and roost our navy; a foreign foe would surely mock the cheap old ships we have in stock, and he from Uncle Sam would knock the blooming gray. Our army truly is the stuff, but then it isn't big enough to cause much trouble our volunteers, in whom we trust, before the foe would bite the dust, and all their fair renown would bust like any bubble. Our guns are mostly out of date, and can't be used for shooting straight; our swords are rusty; our aeroplanes, that cleave the blue, are well enough, but they're too few our generals and colonels, too, are stale and musty. If we should ever be forced to fight, so say the statesmen, in a fright, our name is Trousers; if into war we should be hurled, we'd tremble soon, with banners furled, before the war dogs of the world, the snarling "Towers." So loosen up and pay your tax! Your country needs a battle-ax, and bow and arrow! Oh, when your country calls for men, to buy a new brown-leading gun, I pray you do not then, my son, be mean and narrow!

Society

Most picturesque and delightfully effective was the Bal Poudre given at Assembly Hall on Friday evening with charitable intent by nine young women and a small corps of patronesses. Financial success was the first aim of the committee, and this proved to be more than satisfactory, and from a social standpoint, the ball was one of the most delightful functions of the season. Three hundred guests thronged the ball-room and almost animatedly entered into the spirit of the Poudre feature. The half of each one was powdered and all wore the paint and bits of black patches, and this with the beautiful evening gowns worn by the women made the scene one of beauty.

The ball opened with an elaborate grand march, led by Miss Helen Wright and Mr. Walter Brown, and dancing, including many of the new dances, was continued during the evening, the program being furnished by the Nutter-Hawkins orchestra. No lavish decorations were attempted, but all the lights were shaded with canopies of pink and yellow and in the balcony where a buffet luncheon was served during the intermission, the table was centered with a large basket filled with great, feathery chrysanthemums, arranged and decorated by Florist Halbrook. The tables were lighted with pink and yellow candles.

Arrangements had been made to accommodate those desirous of playing cards, but dancing amused the younger folks and kept the attention of the more elderly spectators, so the card-tables were abandoned.

The idea was originated and perfected by the following young women: Misses Helen Wright, Hazel Altschul, Dorothy Beard, Virginia Dadsweil, Bertha Fulton, Mary Sherwood, Louise Norpell, Bertha Lattimer and Juliet Besuden, and they were aided in their work by the patronesses, Mrs. W. C. Miller, Mrs. Daniel Altschul, Mrs. Fred Wright, Mrs. E. C. Wright, Mrs. Edwin Besuden, Mrs. Frank Webb and Mrs. David Cordray.

The aim of the committee was to collect at least \$200, which was to be sent to the White Cross Society of New York, and through this society to Europe, where it will be distributed among the suffering women and children of the war-stricken countries. The expectations of the committee, however, were more than fulfilled, for from an estimate it would seem that nearer \$300 will be realized. Over 300 tickets were sold and cash donations of \$45 have been received by the treasurer, Mr. E. C. Wright. A meeting of the committee and those interested will be held this afternoon and the exact amount subscribed will be ascertained.

The Golden Oak club met at the home of Miss Mabel George, 361 Woods avenue, November 13. The time was spent in sewing. The club will meet next at the home of Miss Freda Burton, 367 Woods avenue, November 20.

The Sunshine club met at the home of Mrs. Paul Ziegler in Granville street on Thursday afternoon with all members and Mrs. Samuel Alsdorf as guest. The hours were pleasantly spent with needlework and a contest in which all participated, Mrs. George Ross winning the prize, after which dainty refreshments were served by the hostess.

The club will meet with Mrs. Shan Loughman, 123 West Church street, Wednesday afternoon, November 25.

The elite of the social events planned for next week promises to be the Tom Thumel wedding, which will be celebrated in the Second Presbyterian church on Tuesday evening at 7:30 o'clock. It will be a most elaborate wedding and the guests will be many, comprising the citizens of Newark and vicinity.

While the European war has interfered with the procuring of a Parisian trousseau, the costumes of the bridal party are unusually beautiful and lavish. The bride-to-be is Miss Anne Lindsay Wright, the four-year-old daughter of Mr. and Mrs. W. S. Wright, while the groom is Mr. William Prout Woodbridge, the young son of Mr. and Mrs. Frederick Woodbridge, intimately known to his friends as "Billy."

The ring will be carried by little Harriet Miller, while the flower girls are Elizabeth Hatch and Katharine Flory. The bride will be attended by the following maids: Marcia Wolfe, Evelyn Crawford, Marcella Cordray, Lucy Hollander, Alice Miller and Susan Montgomery. The pages are: Don Luther Tullis, Joseph Fitzgibbon and Billy Begien. There will be a corps of ushers.

Many notable personages will be present at the ceremony, such as George and Lady Washington, President Wilson and his daughter, Madame Schumann-Heine, and all will be announced by the ushers as they enter the church.

Immediately after the ceremony a reception will be held in the church parlors and refreshments will be served. An attractive feature will be the beautifully arranged bride's table.

A very pretty afternoon sewing party was given by Mrs. Annie Hatch at her home in North 17th street, on Thursday afternoon. The home was arranged with baskets filled with yellow and white chrysanthemums and in an entertaining little contest the sewers were awarded to Mrs. Henry Woodbridge and Mrs. John B. Moore. A luncheon of delightful appetizers was served to about forty guests.

Miss Nell Adams very pleasantly entertained with a dinner party on Thursday evening at her home in the Belmont. The appointments were very attractive and a lovely table was set for the following: Miss Smith, Miss Broome, Miss Fox and Miss Reese.

Mrs. Perry Combsford entertained with a moderate party, Wednesday evening, at her home, Cedar street, in honor of her guest, Miss Beatrice Korns of Hoboken, O.

Fifty invitations were sent out. Place-cards seated the guests after refreshments the evening was spent in

games, guessing contests, corn-hunt and music by Misses Louanna Langle and Mabel Isabelle.

Those present were: Misses Beatrice Korns of Hoboken, Louanna Langle, Ellen Williams, Dorothy Jones, Mabel Isabelle of Pataskala, Esther Patton, Jane and Mary Williams, Martha and Helen Woolard of Granville, Messrs. John Isabelle, Curtis Jones and Jas. Williams of Pataskala, Bryon Woolard, John Williams, Will Patton, Charlie Combsford and Price Day of Granville, Ren Combsford of Hoboken, Floyd Wright of Johnstown, Howard Lee of Newark, Mrs. Isabelle, Mr. and Mrs. Frank Messenger and son, Lee; Mr. and Mrs. Combsford and sons, Flavia and Homer.

Mrs. Harry Hays of this city, delightfully contributed to the pleasure of a very interesting program that was given before the Woman's Music club at the opening meeting in Coshocton on Monday evening. Mrs. Hays was formerly president of the club and the recital was given at the studio of Miss Olga Schaeffer in the Gray building.

A number of papers were read and delightful musical numbers were given. Mrs. Hays sang a suite called "Moods," by Ashford, including "Entr'acte," "Bird's Song," "Night," and "A Love Song."

Miss Mildred Gore entertained the Yuta Ba Zoota club at her home in Cedar street on Friday evening. The following members were present:

Misses Mildred Kuster, Helen Sanford, Alice Riggs, Ethel Boner, Frances Bausch, Lucille Callahan, Esther Montgomery, James Singleton, Harriett Orr, and the following guests: Mrs. Ray Stauffer, Mrs. Kelley of Cincinnati, and Misses Margaret Warnock and Marij Stauffer of Columbus.

Miss Mary Schaus entertained a few friends with a delightful evening party on Thursday at her home in Ninth street. The hours were informally spent and a dainty two-course luncheon was served to ten guests. The table was arranged with chrysanthemums of varied colors. During the evening a message addressed to "the bunch" was delivered and upon reading it it was found that it announced the engagement of Miss Jessie Marie Dusthimer, daughter of Mr. and Mrs. Roy Dusthimer of Jacksonton, and Mr. George Lee Schaus, son of Mr. and Mrs. Charles Schaus of Ninth street. The date of the wedding has not been announced, but it will probably take place the first of the year. Mr. Schaus is associated with his father in the grocery business in West Main street.

On Wednesday, November 11, at the home of Mrs. H. O. Cramer in Wyoming street, the members of the I. N. W. club were delightfully entertained. After a busy hour spent with their needles, the following members answered to roll call:

Mesdames J. M. Farmer, H. Postle, E. B. Swern, H. McCracken, S. McCracken, B. A. Boring, G. Conlon, E. Patterson, L. Loughman, P. Farmer, H. Loughman, G. Robinson, O. Rickerts, D. Phillips, T. B. Hirst, and the hostess, Mrs. Stump, Mrs. Wickham and Mrs. Root were guests of the club. A dainty luncheon was served. The next meeting will be with Mrs. Farmer in Buckingham street.

The Monday Talks will meet Monday afternoon with Miss Mary Hall of the Granville road. A conveyance will take the members, who are to meet at the Y. W. C. A.

The club will meet with Mrs. Shan Loughman, 123 West Church street, Wednesday afternoon, November 25.

MEASURES TAKEN TO BOLSTER UP GERMANY'S CREDIT

(ASSOCIATED PRESS TELEGRAM) Berlin, via The Hague, Nov. 13.—via London, Nov. 14.—The Reichsbank today took action designed to check the inflow of German loans from abroad. A considerable volume of German bonds, with an English stamp having recently reached Germany, the Reichsbank sees therein an attempt of the English to depress the price of the bonds and discredit Germany's financial solidity.

Hence Rudolf Havenstein, president of the Reichsbank, today conferred with the Burse committee, after which the committee gave out a press statement that the Reichsbank would permanently sever all business relations with banks acting as agents for such foreign operations.

PRESIDENT WILSON IS IN NEW YORK

(ASSOCIATED PRESS TELEGRAM) New York, Nov. 14.—President Wilson arrived in New York from Washington at 6 o'clock this morning and went immediately to the home of Col. E. M. House, whose guest he will be today and tomorrow. Accompanying the President were his daughter, Miss Margaret Wilson and his naval aide and physician, Dr. Cary Grayson.

The President planned to return to Washington at five o'clock tomorrow afternoon.

FOR MYSELF AND FAMILY

Peruna has Done Wonders. Saved Doctors Bills. Prevented Suffering.

Mrs. Emma Stolt, No. 697 Atlantic St., Appleton, Wis., writes: "Peruna has done me a great deal of good since I began taking it, and I am always glad to speak a good word for it."

"Three years ago I was in a wretched condition with backache, bearing down pains, and at times was so sore and lame that I could not move about. I had inflammation and irritation, and although I used different remedies they did me no good. A neighbor who had been using Peruna advised me to try it, and I am glad that I did."

In a later testimonial, Mrs. Stolt says:

"Allow me to express my lasting gratitude for the good your valuable remedies, Peruna and Manalin, have done for myself and family. We have used Peruna for the past twelve years, with never failing results, and could not get along without them in our household. They have saved us many doctor bills."

Those who object to liquid medicines can now obtain Peruna Tablets.

French Report Many Attacks Are Repulsed

(ASSOCIATED PRESS TELEGRAM) Paris, Nov. 14.—The French official communication this afternoon says that a German attack against the bridge at Neuport resulted in failure, and that various offensive movements of the enemy around Ypres have been checked.

The text of the communication follows: "In Belgium a German attack against the head of the bridge at Neuport resulted in failure, and various efforts at offensive movements on the part of the enemy in the region to the east and to the southeast of Ypres have been checked."

"In the environs of Bischoote we have progressed one kilometre toward the east. Between the canal of Labasse our troops have made more progress. In the region of Lassigny in the vicinity of the Aisne, as far as Berry au Bac, the Germans have attacked but without success."

"In the Argonne fighting has recommenced with greater spirit. The enemy endeavored, but in vain, to recapture Four de Paris and Neuport."

"Particularly in the vicinity of Verdun several partial offensive movements on the part of the enemy were checked by the fire of our artillery before the forward movement of the enemy's infantry could be undertaken."

"In the Woëvre district and in Lorraine, where bad weather prevails, there is nothing to report."

NEW HEAD

OF UNITED STATES ARMY WILL BE BRIGADIER GENERAL HUGH L. SCOTT.

Change Will Take Place Monday—General Funston and Bliss Will Be Promoted.

(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 14.—Brigadier General Hugh L. Scott, for many years a conspicuous figure in the United States army had official notice today that President Wilson had selected him to become chief of staff upon Major Witherpoon's retirement next Monday. That change will result in the promotion to Major General of Brigadier General Frederick Funston who took command of the forces at Vera Cruz soon after the American occupation, and Brigadier General Tucker H. Bliss will become chief of the mobile army division. General Scott will succeed to a major generalship upon the retirement of Major General Murray next April.

About twenty-five members of the W. C. T. U. were entertained by Mrs. Albert Norris at her home in Cherry street yesterday afternoon, the business session being devoted to an interesting discussion of the "Present Situation" under the leadership of Mrs. William Howe. A delightful feature of the program was the vocal duet by Mrs. Sarah Rose and Miss Anna Barrett and the solo by Miss Barrett, accompanied by Mrs. Darrow. Miss Barrett possesses a contralto voice of great sweetness and sang with fine expression. The topic of the day lent itself to free discussion, and many of the ladies took part in it. Mrs. Howe and Mrs. J. V. Wood were elected to arrange for the printing of a leaflet containing the names of the county officers, of the W. C. T. U. and the names of officers and superintendents of all the local unions of the county. A motion prevailed to send \$5.00 at once to Wayne B. Wheeler to use in his new campaign. Meeting adjourned by repeating the 230 Psalm in concert. Following the program the hostess served refreshments.

The members of Kappa Phi Sorority received their friends at tea yesterday afternoon in the Chapter House. Among the out of town callers were noticed Mrs. Frank Webb, Mrs. Helen King, Mrs. Wesley Montgomery, Mrs. Clarence Helsey, her mother Mrs. Davis of Newark, Mrs. J. A. Brown of Toledo, and Mrs. R. S. Edwards of St. Paul, S. D.

The Granville Times is responsible for the statement that two fine entertainments for the benefit of the Granville Public Library are already under way. The "Christmas Carol" concert will be given by Mrs. C. B. White and her large chorus of girls and boys. This announcement will be received with delight by the many friends who were so greatly pleased with the entertainment last year.

Dean Eschman of the Conservatory and Professor Hoppe of the Department of Elocution of Denison, will join forces in a grand musical and literary program to be given some time later, proceeds from both benefits to be used for new books and periodicals.

Mrs. Ella Turner of Brooklyn N. Y., who has been visiting Mrs. R. S. Colwell for a day or two, returned to the home of her uncle and aunt, Mr. and Mrs. R. P. Ford in Newark, to complete her visit with them. While in Granville Mrs. Turner was entertained at luncheon at the home of her cousin, Dr. and Mrs. A. K. Follett, and at dinner by Mr. and Mrs. J. S. Jones at Bryn Du Farm.

The funeral of Mrs. Charles R. Reese, who died at his home on the Lancaster road, Friday morning after a three weeks' illness, was held this afternoon at 10 o'clock, interment being made in Maple Grove cemetery. Mr. Reese was in the 63rd year of his age, and had many warm friends in the community.

NEWARK MUSIC TEACHER HEADS LOCAL BRANCH
Mrs. Bertha M. Roe of Fulton Ave., prominent local music teacher, has been honored by the Sherwood School of Music of Chicago, by being selected to act as director of a local branch of the school which has just been established.
The Sherwood school is among the foremost musical institutes of the country having been founded nearly 20 years ago. Within the past few years, the school adopted the policy of establishing branches in various cities, where instructors of recognized ability have been placed in charge. This gives to all who inspire to a better musical education, an opportunity to get the same instruction at a much lower cost.
Mrs. Roe has been elected to membership on the faculty of the extension department of the school, and has been placed in charge of the local branch. It is a nice compliment to Mrs. Roe's standing as an instructor in music.

SPECIAL MUSIC SUNDAY.
At the morning service at 10:30 tomorrow at Trinity church, Miss Zoe Fulton will sing the offertory solo.

The Sunday evening service at Trinity church is at 7:30 o'clock. On this Sunday evening, immediately after evening prayer has been said, in place of a sermon, the choir will sing a Thurm-singing cantata. This service of song will last about twenty minutes and the words will be placed in the hands of each member of the congregation. The offering will be for the benefit of the choir fund.

ENTIRE STATE

(Continued from Page 1.)
ter of stock to prevent the communication of disease. The state today ordered the slaughter of 1000 head of cattle, 800 hogs and 800 sheep, property of the state, and held on the farms of various state institutions. The animals will be converted into dressed meats for use in these institutions.

Indications today were that thousands of head of livestock will be slaughtered in Ohio in an effort to stop the spread of the foot and mouth epizootic. The state has no funds with which to pay half the appraised value of these.

Owners will have to await appropriations of a fund by the next general assembly. President Sandles said today. The state will give each owner of slain stock a statement showing the amount due from the state but this will not constitute a promise to pay. It was said there is no doubt, however, that the legislature will make sufficient appropriations. The other half of the appraised value is to be paid by the federal government which also has no ready fund for the purpose.

Governor Cox became alarmed at reports of the disease and while preparing to start tomorrow on a hunting trip in Kentucky, telephoned from his home in Dayton today urging the agricultural commission not to hesitate in taking drastic action if this was thought wise to protect the live stock industry. He suggested particularly that the hunting season be abolished.

The immediate slaughter of 1000 cattle, 800 hogs and 600 sheep in various counties was ordered by the commission Saturday. There are 600 herds suspected of having the disease which have not been inspected yet. Additional inspectors will be put on at once. Thus far less than 300 cattle and 300 hogs have been destroyed.

State and government officials fear it may be necessary to kill hundreds of thousands of dollars' worth of live stock in order to stamp the disease out of the state.

New Aspect In Local Status Cattle Plague

The local situation regarding the foot and mouth disease of cattle assumed new aspects Saturday when it was learned that state and government inspectors were working in the vicinity of Utica. Several herds of cattle in the northern part of the county are under observation but no cases have been reported although it is known that they were exposed to this disease. Thorough disinfection of several places is being and it is hoped in this manner to ward off the trouble.

The order issued by the agricultural commission of the state and the bureau of live stock industry regarding the transportation of hay, straw or similar fodder does not seem to have been readily understood so it is quoted again by the Advocate and is as follows:

"The intrastate shipment without disinfection from such quarantined counties into any other county in Ohio of hay, straw or similar fodder harvested prior to Aug. 1, 1914, and stored since then away from live stock, is hereby permitted; PROVIDED, that in all aforesaid classes the owner or consignee files an affidavit with the transportation company at the point of shipment certifying to such fact."

A further amendment to the order issued at Columbus on Nov. 7, permits the interstate shipment from quarantined counties into any other county of Ohio of hay, straw or similar fodder harvested since Aug. 1, 1914, and used for packing purposes which has been disinfected with formalin gas; PROVIDED, that facilities for disinfection have been inspected and approved by an inspector of the bureau of live stock industry.

The foot and mouth disease has developed in several flocks of hogs south of town and one flock of sheep. All of these together with the herds of cattle will be destroyed and buried in large pits. The owners will be compensated for the stock and also for the expense of digging the pits. Great care is being exercised that the disease may not spread and owners of stock which has been exposed are assisting the inspectors in every manner possible. Land owners are refraining from going from one field to another and they are zealously guarding their places to keep off trespassers. Only in this manner can the disease be stamped out.

Warnings are also issued to dairymen in the infected district not to dispose of any of their products under a severe penalty.
Dr. R. L. Farnham, of the bureau of animal industry at Washington, who is now stationed in this city, informed an Advocate representative that no hay or straw will be allowed to be transported along the public highway. Dr. Farnham said that the inspectors were working in the infected district and that he hoped to have the co-operation of all citizens in the work as it would mean the eradication of the disease in a shorter period.

The Range For All-Year-Round

This Favorite Range burns gas, coal or wood. It occupies no more space in the kitchen than your present cooking stove.

In winter time you need a coal fire that cooks, bakes, broils, roasts, heats all the water you can use and warms two or three rooms of the house with one fire—one expense. The

Favorite 3-Fuel Range effects this economy for you during the cold days.

This range combines the most convenient, satisfactory and economical way of using both coal and gas, as well as wood. A complete coal range and gas range are embodied in it—both complete, and both with ample capacity to satisfy the most exacting family requirements.
